

## PatDraw Sets New Standard with Premium Quality Patent Drawings at Unbeatable \$28 Per-Sheet Pricing

**New York City, New York Jul 8, 2025 ([Issuewire.com](https://www.issuewire.com))** - PatDraw ([ThePatentDrawings.com](https://ThePatentDrawings.com)), a leading provider of professional patent illustration services, today reinforced its position as the industry's premier choice for high-quality patent drawings by combining top-notch craftsmanship with its revolutionary **\$28 per-sheet pricing model**. The company's unique approach allows multiple figures per sheet, delivering exceptional value without compromising on quality.

### Premium Quality Meets Unbeatable Value

PatDraw's commitment to excellence is evident in every drawing produced by their skilled team of technical illustrators. Each patent drawing undergoes a comprehensive 35-point quality checklist, ensuring full compliance with USPTO and PCT requirements while maintaining the precision and clarity that patent examiners demand.

"Quality should never be a compromise when it comes to protecting intellectual property," said a PatDraw spokesperson. "Our **\$28 per-sheet pricing model** proves that inventors and patent attorneys can access premium-quality patent drawings without the premium price tag traditionally associated with top-tier services."

### Multiple Figures, Single Sheet - Maximum Value

PatDraw's innovative per-sheet pricing structure allows clients to include multiple figures on a single sheet, dramatically reducing costs compared to traditional per-figure pricing models. This approach provides inventors and legal teams with predictable budgeting while maximizing the value of each

illustration.

The company's impressive track record speaks to its quality commitment:

- 98% first-time approval rate with patent offices
- Average delivery time of just two days
- Over 14,000 patent drawings successfully completed
- Free revisions are included with every order

## Comprehensive Patent Drawing Services

PatDraw specializes in all types of patent illustrations, including:

- **Utility Patent Drawings** - Technical illustrations that clearly demonstrate invention functionality
- **Design Patent Drawings** - Precise visual representations of ornamental designs
- **Objected Patent Drawings** - Corrective illustrations addressing examiner concerns
