

# Power Station 22500mAh Power Bank Just Got Better with New Additions for Ultimate Convenience

newagechargers,Lagos, Nigeria July 30, 2025

**Lagos, Nigeria Jul 10, 2025 ([Issuewire.com](https://www.issuewire.com))** - In our ongoing commitment to deliver smarter, more reliable tech solutions, we're excited to announce an exciting update to our best-selling Power Station 22500mAh Power Bank (With In-built Cables). Already known for its high-capacity charging and convenience, this portable powerhouse now comes with "a digital LED display and fast-charging USB-C input/output" making it even more essential for professionals, travelers, and everyday users.

The Power Station has earned a strong reputation for its massive 22,500mAh battery capacity, capable of charging multiple devices on the go. With built-in Lightning, USB-C, and micro-USB cables, it eliminates the hassle of carrying extra cords—ensuring you're always ready to charge any device, anytime.

### What's New?

We've added "a sleek LED display that shows the exact battery percentage and charging status in real-time, along with a high-speed 20W USB-C PD port for faster charging". This new upgrade empowers users with more visibility, speed, and flexibility, giving them total control over their power usage.

### Key Features:

22,500mAh Battery Capacity – Long-lasting power for phones, tablets, and more.

Built-in Cables – Includes Lightning, USB-C, and micro-USB.

LED display for battery and charging indicators.

20W USB-C PD for fast charging & input.

Multiple Output Ports – Charge up to 4 devices at once.

Compact & Travel-Friendly – Designed for portability without compromise.

This upgraded version continues our mission to blend power, performance, and practicality. Whether you're commuting, working remotely, or heading off-grid, the enhanced Power Station 22500mAh Power Bank ensures your devices stay powered all day—and now, with even more intelligence built in.

### Availability:

The updated Power Station is available starting July 30 at <https://www.newagechargers.com/> and at select retail locations nationwide.
