PTI WebTech Introduces 3 Innovative WordPress Plugins for Website Owners and Developers

PTI WebTech Introduces 3 Innovative WordPress Plugins

Duplicate Page - PTI

Redirection Manager- PTI

Website Maintenance- PTI

Jaipur, Rajasthan Jul 1, 2025 ([Issuewire.com](https://www.issuewire.com)) - **Prerna Trimurty Infotech Pvt. Ltd.** (PTI WebTech), one of the leading software development companies based in India, has released three latest WordPress plugins that make life easier for both website owners and developers. The company, famous for developing and delivering agile, high-quality web solutions, has developed these plugins with three key aspects in mind – functionality, performance, and website management.

These three plugins continue to embody PTI WebTech's long-time commitment to building intuitive and innovative web solutions that can be scaled easily and that can stand the test of time as technology evolves. From bloggers to business owners, from developers to digital agencies – these plugins improve the experience of anyone who owns and operates a WordPress website.

New Plugins from PTI WebTech

[Duplicate Page PTI – Clone posts, pages, and products in one click](#)

Designed for content creators, marketers, and WooCommerce store owners, this plugin simplifies content duplication with instant cloning of any post, page, or custom post type. It boosts productivity and reduces the risks of human errors.

[Redirection Manager PTI – Smart redirection with 404 tracking and SEO optimization](#)

This is an essential tool for SEO managers and site admins. This plugin offers 301/302 redirect control, 404 error logs, auto-redirects on slug changes, and WooCommerce product redirect suggestions. Users can keep traffic flowing into their WordPress website and maintain their search rankings with the help of the Redirection Manager Plugin.

[Website Maintenance PTI – Create professional coming soon and maintenance pages](#)

PTI WebTech has introduced this plugin with developers, agencies, and site owners as the target customers. As you try to manage site updates or launches, this plugin adds a customizable maintenance mode with banners, countdown timers, admin bypass, and Google Analytics integration. Even when your site goes offline, this plugin keeps it polished and professional.

“At PTI WebTech, our mission has always been to empower businesses with tools that are simple to use and powerful in impact,” said Sugan Chand, Founder of PTI WebTech, “With these new plugins, we’re taking another big step toward helping WordPress users achieve more with less effort.”

Every plugin that PTI WebTech designs is built with clean codes and detailed documentation. These plugins are compatible with every version of WordPress. PTI WebTech also offers expert support and maintenance services for a smooth experience for all users.

Why Choose the Plugins from PTI WebTech?

- Developed by seasoned WordPress experts
- Regular updates and performance improvements
- Seamless integration with popular themes and plugins
- Fast, responsive customer support

Make your WordPress life easier. All three plugins are now available for download on the [**WordPress Plugins Directory**](#).
