Bengaluru, Karnataka Jul 7, 2025 ([Issuewire.com](https://www.issuewire.com)) - QuickMove Technologies, a global leader in logistics and relocation software solutions, today announced the official launch of its **Move Survey Quote Pro App**. This cutting-edge mobile platform is engineered to digitally transform survey operations, streamline quote generation, and significantly enhance customer engagement for moving and relocation companies worldwide.

The state-of-the-art application redefines traditional moving surveys by providing surveyors with a comprehensive digital toolkit. This empowers them to conduct professional in-person and remote surveys, accurately estimate costs, and generate instant, precise quotations – all seamlessly through a single, intuitive mobile interface.

“The moving industry is experiencing a profound digital transformation, and businesses must adapt to not only survive but thrive competitively,” stated Gopalakrishna Pillai K, CEO of QuickMove Technologies. “The Move Survey Quote Pro App is specifically designed to equip moving professionals with real-time tools that dramatically boost efficiency, improve accuracy, and elevate client satisfaction throughout the critical pre-move process.”

Key Capabilities of the Move Survey Quote Pro App Include:

- **Mobile Survey Execution:** Facilitates on-site or virtual surveys with meticulously structured checklists and an intuitive user interface.
- **Instant Quotation Generation:** Enables the creation and immediate sharing of professional quotes, powered by configurable pricing rules.
- **Automated Volume and Cost Estimation:** Leverages pre-set templates and advanced AI-driven calculations for unparalleled accuracy.
- **Integrated Photo/Video Documentation:** Allows for the capture of supporting visuals, voice notes, and detailed remarks during surveys.
- **Customizable PDF Reports:** Generates branded survey reports and quotations instantly in a downloadable format.
- **Seamless Backend Integration:** Connects effortlessly with QuickMove’s comprehensive Enterprise Suite (CRM, Operations, Billing, Accounting) for a truly unified workflow.
- **Versatile Business Support:** Offers tailored functionalities for private customers, corporate accounts, and agent-based business models.
- **Advanced Analytics and Team Monitoring:** Provides a centralized dashboard to track surveyor performance, conversion rates, and overall productivity.

Designed for both domestic and international movers, the Move Survey Quote Pro App significantly accelerates deal closure by reducing manual processes and enhancing customer response times. Its robust cloud-based accessibility ensures operational agility and 24/7 availability across various devices and locations.

By effectively bridging the gap between critical field operations and vital back-office processes, QuickMove offers a holistic digital solution that future-proofs moving businesses against operational bottlenecks and the ever-increasing expectations of modern customers.

About QuickMove Technologies

Established in 2009 and headquartered in Bengaluru, India, QuickMove Technologies is a distinguished logistics technology firm specializing in innovative software solutions for freight forwarding, moving and relocation, warehousing, and transport management. With a strategic presence across Asia, Europe, and the Middle East, QuickMove empowers logistics companies through scalable, cloud-based platforms that consistently drive efficiency, enhance visibility, and foster sustainable business growth.
