

Respiris Inc. Launches Disruptive Affiliate Program to Reinspire Career Transitions

Also Announces "You Are Not Alone" Podcast to Support Human-Centered Offboarding

Los Angeles, California Jul 19, 2025 ([Issuewire.com](https://www.issuewire.com)) - Respiris Inc. today announced the launch of its disruptive Affiliate Program, inviting HR professionals, coaches, and Partners to refer companies in transition and earn 10–20% of revenue while helping individuals recover from job loss. Rooted in empathy and powered by AI, Respiris redefines outplacement by co-building each step of the journey with impacted employees.

"We don't hand someone a résumé and wish them luck," said Angel Cruzado, Founder and CEO. "We share screens, use AI tools live, and co-build the transition together."

The 3-month, 10-session program is priced at \$1,500 - well below the \$3,000 – \$7,500 charged by traditional firms. Services include:

- Live résumé and LinkedIn development
- Hands-on support with ChatGPT and the Respiris AI Companion Coach
- Career Prayer™ sessions to reconnect identity and purpose
- Network activation to move from isolation to opportunity

Cruzado began this work while conducting layoffs at companies like Microsoft and Medtronic - volunteering to help impacted employees rebuild. Word spread, and Respiris now serves VC- and PE-backed employers across the U.S.

Respiris also launched the ***You Are Not Alone*** podcast, featuring honest conversations with CHROs, founders, and employees navigating transition with courage and care.

Companies pay only when impacted employees opt in; minimizing legal risk, inflated severance, and reputational harm.
