

Royalzig Unveils India's First World-Class Luxury Furniture Experience Center

A Destination of Design Legacy, Craftsmanship, and Timeless Style Opens January 2026.

Saharanpur, Uttar Pradesh Jul 6, 2025 ([Issuewire.com](https://www.issuewire.com)) - Royalzig, India's foremost luxury furniture house known for its handcrafted European and Indian masterpieces, proudly announces the launch of its first Royalzig World Experience Center — a one-of-a-kind furniture display destination nestled within the brand's iconic manufacturing premises in Saharanpur. Opening to visitors and design professionals in mid-January 2026, this sprawling, ultra-luxurious display gallery is a physical embodiment of Royalzig's design philosophy, offering a curated journey across the world's most celebrated furniture styles.

Each curated section within the center is a complete world in itself — featuring fully styled bedrooms, dining rooms, living spaces, hallways, entryways and [antique furniture](#) that seamlessly immerse visitors into distinct eras and aesthetics. Styles include:

- French Neoclassical
- Louis XVI & Rococo

- Baroque & Classic Italian
- French Country & Victorian Colonial
- Mid-Century Modern & Modern Contemporary
- Bohemian (Boho) & Shabby Chic
- Indian Traditional, Mughal, and Art Deco Revival

Each zone is adorned with opulent chandeliers hand-carved from teak, bespoke console tables, regal canopy beds, ornate mirrors, plush sofas, hand-knotted rugs, artisanal lighting, and rare decorative accessories — all crafted under one roof by Royalzig's master artisans.

A Temple of Furniture Art

Walking through the Experience Center is akin to strolling through a living museum of global design history — except here, every piece is available for customization and ownership. Visitors can touch, feel, and experience the texture, proportions, and aura of museum-grade furniture — be it a Rococo gilded console or a Mid-Century walnut credenza.

Royalzig's Founder & CEO, Mr. Ashwani Rawat, shared his vision during an exclusive preview: *"This isn't just a display unit — it is India's first temple of furniture artistry. Every corner of the Royalzig Experience Center reflects decades of design tradition, technique, and legacy. Our patrons can walk through eras — from Mughal India to Renaissance Italy to 19th-century France — all under one roof. We're not selling furniture here; we're offering an education in timeless luxury."* He adds, *"We wanted to create a destination that resonates with global connoisseurs and Indian design lovers alike — a place where interior designers, architects, villa owners, and collectors can experience the soul of Royalzig."*

More than a Display — A Destination

The Experience Center will also feature:

- Private Design Lounges for client consultations
- On-site Customization Studio to view material samples, finishes, carvings, and woodwork
- Live Artisanal Showcase Zone where visitors can observe master artisans at work
- Immersive Lighting & Ambience settings to showcase mood-based interiors
- By-Appointment Access for elite clientele, architects, and global buyers

With its grand opening scheduled for mid-January 2026, the Royalzig Experience Center aims to set a new benchmark in India's high-end furniture industry, redefining how luxury furniture is experienced and acquired.
