

Scrums.com Acquires Jobmote, One of the Oldest Remote Job Boards with 1.8M Jobs

New York City, New York Jul 17, 2025 ([IssueWire.com](https://www.issuewire.com)) - At [Scrums.com](https://www.scrums.com), we're always on the lookout for opportunities to innovate and enhance our impact on the software development industry. In line with our commitment to driving forward-thinking solutions, we're excited to announce our recent acquisition of JobMote, one of the worlds oldest and first dynamic online job posting platform that is dedicated to remote work, a trend that continues to reshape how businesses operate globally.

Jobmote:

JobMote is a niche but influential company in the remote work ecosystem. Founded in 2013 with a mission to bridge the gap between remote job seekers and forward-thinking employers, JobMote has carved out a meaningful space in the digital hiring landscape. As remote work continues to cement itself as a core component of modern business strategy, companies like JobMote play a crucial role in enabling seamless connections between talent and opportunity.

Facilitating the Rise in Remote Work:

The rise of remote work is one of the most significant shifts in the workforce over recent years. JobMote has stood out as a key player in facilitating these changing dynamics, offering tools and resources to assist when searching for remote work, filling the gap many other hiring platforms hadn't yet tackled. Scrums.com's orientation towards a distributed workforce and having a global talent network is consequently well aligned with Jobmote as a platform.

Our acquisition of JobMote reflects our enthusiasm for supporting platforms that enhance the remote working environment. The features and capabilities that JobMote brings to the table align well with [Scrums.com](https://www.scrums.com)'s ethos of fostering innovation and collaboration. We believe that embracing diverse solutions is a powerful way to meet the evolving needs of the digital workforce, ensuring that companies and talent can seamlessly collaborate across borders.

The Road Ahead:

As we move forward with the exciting prospect of this acquisition, we remain focused on delivering enhanced value and support to our community of users. The 1.5 million remote Jobs will be migrated across to www.scrums.com/jobs and will continue to serve users. JobMote's strengths show promise to strongly augment our Software Development Orchestration Platform (SEOP) [Scrums.com](https://www.scrums.com). Stay tuned for more updates from [Scrums.com](https://www.scrums.com) as we continue to evolve our mission.
