

SD LION TMT Launches Advanced TMT Bars for Safer, Smarter, and Stronger Indian Construction

India's emerging steel brand brings BIS & ISO certified TMT bars with superior strength, seismic resistance, and corrosion-proof design.

kolkata, West bengal Jul 9, 2025 ([Issuewire.com](https://www.issuewire.com)) - SD LION TMT Launches High-Performance TMT Bars for Modern India

[SD LION TMT](#), a growing name in India's steel industry, proudly announces the launch of its premium-grade **TMT (Thermo-Mechanically Treated)** bars, designed for the future of construction. The company's new line of TMT bars promises superior durability, seismic resistance, and long-term reliability for infrastructure across India.

Manufactured at integrated steel plants in West Bengal using virgin raw materials, [SD LION TMT](#) bars go through a cutting-edge quenching and tempering process. These bars are available in Fe 500, Fe 550D, and 600 EQR grades, making them ideal for residential, commercial, and industrial construction.

Built for Strength, Engineered for Safety

The new generation of SD LION **TMT bars** ensures exceptional strength-to-weight ratio, excellent elongation, and high ductility. Designed to perform under extreme stress, including earthquakes and high-humidity conditions, these TMT bars provide engineers and developers with unmatched confidence in structural integrity.

Key Features of SD LION TMT Bars:

-  BIS & ISO Certified TMT bars with consistent quality
-  High earthquake resistance with superior flexibility (Fe 550D/600 EQR)
-  Corrosion-resistant alloy for long life in coastal & humid regions
-  Uniform rib pattern for maximum grip with concrete

"Our mission is to deliver world-class steel that supports the backbone of Indian infrastructure," said **Mr. Anup Tod**, Chairman of SD LION Group. "With SD LION TMT, we aim to provide every builder and developer with the strength they can trust and the quality they deserve."

Expanding Reach Across India

SD LION TMT is rapidly expanding its presence with a wide dealer network across Eastern India, including Kolkata, Durgapur, Asansol, and Siliguri. The company is also investing in digital transformation to make **TMT bar** information, pricing, and technical data easily accessible through its website SDLionSteel.com.

About SD LION TMT

SD LION TMT is a division of Shree Ramdoot Group, established in 2008 and headquartered in Kolkata. The group specializes in Ferro Alloys, Sponge Iron, MS Billets, and advanced TMT bar manufacturing. With a focus on quality, sustainability, and innovation, SD LION TMT bars are engineered to build India's strongest foundations.
