Granada Hills, California Jan 9, 2026 ([IssueWire.com](https://www.issuewire.com)) - Apostille Service US, a trusted provider of U.S. document apostille and legalization services, has officially rebranded as **Secure Legalization Services (SLS)**. This rebranding highlights the company's focus on secure, efficient, and nationwide document authentication solutions.

Headquartered in California, SLS continues to assist individuals, businesses, and organizations with apostille services for Hague Convention countries and consular legalization for non-Hague nations.

"The rebranding to Secure Legalization Services aligns with our vision of offering a secure and simplified process for document authentication," said Olivia Shawn, spokesperson for Secure Legalization Services. "We have also revamped our website to enhance accessibility and user experience for our clients."

The updated website, www.apostilleserviceus.com, now features a streamlined interface and detailed state-by-state guides. Visitors can explore services like birth certificate apostille, essential for personal documentation, and degree certificate apostille for students pursuing education abroad. Businesses benefit from certificate of incorporation apostille and other corporate document services.

For those in California, SLS offers [California apostille services](#), while nationwide support covers all 50 states, including Texas apostille services and New York apostille services. Additionally, clients needing federal authentication can learn about the U.S. Department of State apostille process directly from the site.

Key Services by Secure Legalization Services (SLS):

- Apostille for U.S. personal, educational, and corporate documents
- Embassy and consular legalization for non-Hague countries
- State and federal certification services
- Secure online process with nationwide support

With its new identity and expanded resources, SLS reinforces its position as a trusted partner for students, professionals, businesses, and expatriates needing authenticated U.S. documents abroad.
