

SeedPod Cyber Launches Tech E&O Program for Tech Companies

Purpose-built coverage for tech companies facing real-world liability—from software errors to service failures. Now available to brokers through SeedPod Cyber's new Tech E&O program.

Princeton, New Jersey Jul 17, 2025 ([IssueWire.com](https://www.issuewire.com)) - SeedPod Cyber is excited to announce the official launch of our **Technology Errors & Omissions (Tech E&O) insurance** program—designed specifically for today’s tech companies and now available to both **retail and wholesale broker partners**.

Why Tech E&O, and Why Now?

Technology companies face unique and fast-evolving risks. Whether you're building software, providing managed IT services, or developing next-gen platforms, the consequences of even a minor oversight can be severe—from contractual disputes to client financial losses. Traditional insurance products often fall short of meeting the nuanced liability needs of these businesses.

Our Tech E&O program addresses that gap—bringing comprehensive coverage that goes beyond just cyber liability to include professional negligence, product failure, and client damages resulting from tech services or products.

Who Is This Program For?

This program is tailored for a broad range of technology businesses, including:

- Software developers and SaaS providers
- Managed Service Providers (MSPs)
- IT consultants and systems integrators
- Data analytics, AI, and emerging tech companies
- Digital platform and cloud-based service vendors

Whether your client is a fast-scaling startup or an established mid-market tech firm, our program is built to adapt to their stage and structure.

What Makes Our Program Different?

- **Bundled Cyber & Tech E&O**—Combine critical risk coverages in one streamlined solution
- **Fast Quote Turnaround**—Designed for brokers who need speed without sacrificing quality
- **MSP-First Lens**—Backed by deep expertise in the IT and MSP space
- **Distribution Flexibility**—Available through both **retail brokers** and **wholesale partners**
- **Risk Management Built In**—Includes proactive security tools and compliance guidance

Partnering With Brokers: Retail and Wholesale Channels Welcome

We recognize that brokers are on the front lines of protecting tech clients, and we’ve structured our program to support both **retail brokers** working directly with insureds and **wholesale brokers** supporting broader distribution.

With our embedded quoting tools, dedicated underwriting team, and a deep understanding of the tech landscape, we help you move faster and win more business.

Ready to Learn More?

If you're a tech company ready to get started, reach out to us at <https://seedpodcyber.com/cyber-tech/>, or if you are a broker, message us at <https://seedpodcyber.com/for-brokers/>

Let's build a safer future for tech—together.
