

SEO Expert Romania Celebrates Four Years of Growth with New Focus on Training

Bucharest SEO firm marks 4-year milestone, emphasizing education and foundational strategies in the AI era.

Bucharest, Bucuresti Jul 6, 2025 ([Issuewire.com](https://www.issuewire.com)) - SEO Expert Romania, a boutique consultancy founded by Alexandra Chifuleac, celebrates four years of activity in the Romanian digital market. Since its launch in 2021, the agency has evolved into a reference name for technical SEO, strategic content planning, and sustainable visibility in search results.

Over the past four years, SEO Expert Romania has worked with local businesses, startups, and niche brands to build stronger online presences. Known for its tailored, data-driven approach, the consultancy focuses on clarity, efficiency, and adaptability in a fast-changing search environment.

Alexandra Chifuleac, founder of the company, believes in the power of SEO education as a long-term growth tool. "We want to equip people with real SEO know-how — tools and strategies they can apply right away to make meaningful progress," she says. Her training programs aim to simplify SEO and make it more accessible to entrepreneurs, content creators, and internal teams.

To learn more about SEO Expert Romania's mission and approach, visit the [About page](#).

As search engines integrate more AI into their interfaces, staying current is essential. SEO Expert Romania now includes AI-focused updates and workshops to help clients adapt to the shift. These programs explain how to align websites with new search experiences while maintaining strong fundamentals.

The firm's core services include technical audits, keyword and content strategy, link-building, and personalized SEO training. They are designed to meet the needs of businesses seeking both immediate results and sustainable performance.

For training opportunities, see the dedicated section on [SEO courses](#). Courses combine industry-standard best practices with the latest developments in AI-driven search and Google's evolving SERP features.
