

Tirupati Transformers: Powering the Future with Reliable Three Phase Distribution Solutions Across Delhi NCR

From 100 KVA to 2500 KVA – Tirupati Transformers Meets the Demands of Modern India

The advertisement features a large, detailed image of a Tirutech three-phase distribution transformer. The transformer is white with blue and yellow accents, including the 'TIRUTECH' logo on its side. It has a cylindrical cooling fan on top and several high-voltage terminals. The background is a dark blue with diagonal stripes and a grid of white dots. The text 'WE MANUFACTURE TRANSFORMERS FOR EVERY INDUSTRIAL PURPOSE' is prominently displayed in white and yellow. A 'know More' button with a white arrow points to the contact information at the bottom. The Tirutech logo is in the top right corner.

Greater Noida, Uttar Pradesh Jul 3, 2025 ([Issuewire.com](https://www.issuewire.com)) - Tirupati Transformers, a BIS and ISO-certified manufacturer of high-performance **three phase distribution transformers**, is emerging as a trusted name in India's power infrastructure landscape. With a strong presence across **Delhi, Noida, Gurugram, Faridabad, and Ghaziabad**, the company is driving energy efficiency and power reliability across industrial, residential, and commercial sectors.

Founded with a vision to deliver **cost-effective and energy-efficient power solutions**, Tirupati Transformers offers a wide range of transformer capacities from **100 KVA to 2500 KVA**, all designed to meet the growing demands of modern India's infrastructure.

Setting Industry Standards in Transformer Manufacturing

What sets Tirupati Transformers apart is its commitment to **quality, customization, and timely delivery**. The company uses high-grade copper windings, robust insulation systems, and advanced testing processes to ensure every transformer delivers optimal performance with **minimal losses and maximum reliability**.

Whether it's an industrial zone in Noida, a smart city project in Gurugram, or a housing society in Delhi, Tirupati Transformers provides tailored transformer solutions with full technical support and **Annual Maintenance Contracts (AMCs)**.

Serving Core Sectors Across Delhi NCR

Tirupati Transformers caters to a wide range of clients including:

- Real estate developers
- Manufacturing units
- Hospitals, schools & data centers
- Infrastructure & metro projects
- Government & smart city initiatives

With a rapidly growing client base and a reputation for delivering on time, the company has become a go-to transformer manufacturer for critical power needs in North India.

Scaling Sustainably with Innovation

"As India's power demands grow, the need for reliable, efficient and scalable distribution transformers becomes more critical than ever," **said Kapil Tomar**, Director of Tirupati Transformers. "We are proud to contribute to India's growth story by powering progress with sustainable and smart transformer solutions."
