

WellnessLiving Unveils Enhanced All-in-One Platform for Wellness, Fitness & Beauty Businesses

Toronto, Ontario Jul 31, 2025 ([Issuewire.com](https://www.issuewire.com)) - [WellnessLiving Systems Inc.](#) today announced the latest enhancements to its comprehensive SaaS platform, designed to streamline operations and fuel growth for fitness, spa, yoga, martial arts, salon, and wellness centres worldwide.

WellnessLiving delivers a fully integrated solution—including online booking, class scheduling, point-of-

sale, marketing, client apps, reporting, and branded custom website building—all housed within one cloud-based system. The platform now features tools such as Isaac, an AI-powered client churn risk predictor, enhanced lead-capture forms, and advanced reporting dashboards that monitor membership cancellations, visit milestones, and lifetime client value.

With recent updates in Version 25.66 and Version 25.67, businesses can benefit from smarter commission controls, Spivi workout metrics integrated into the client app, a responsive React-based schedule widget, and online membership cancellation options configurable per purchase plan. The platform's lead-capture form builder simplifies intake, surveys, and consent workflows while maintaining compliance with privacy standards.

Trusted by thousands of small and medium wellness businesses across North America, WellnessLiving offers affordable pricing tiers tailored to scale with client demand and business complexity. Its branded website service ensures consistent visual identity, SEO optimization, and seamless integration with booking and review systems.

With headquarters in Thornhill, Ontario, WellnessLiving continues to drive customer-centric innovation, helping business owners reduce administrative burdens and cultivate seamless client experiences.
