

Where Art Meets Architecture: Harooni Design Sets a New Standard in Curated Living

Harooni Design is reshaping luxury interiors in the GCC with a refined, art-driven approach—setting new standards in bespoke design for high-end residential, commercial, and hospitality spaces.

Dubai, United Arab Emirates Jul 12, 2025 ([Issuewire.com](https://www.issuewire.com)) - Led by Founder and Creative Director **Melica Harooni**, the studio is celebrated for its ability to craft tailored environments that seamlessly integrate architectural form, custom furnishing, curated art, and emotional storytelling. Each project is a unique composition — merging timeless elegance with functional design to create atmospheres that resonate with the identity and aspirations of its clientele.

“Design at its highest level is not about decoration — it's about creating meaning. Our work is driven by the desire to curate spaces that evoke emotion, reflect identity, and elevate everyday living,” says Melica Harooni.

From signature villas in Dubai to private offices in Riyadh and boutique spaces in Doha, Harooni Design is gaining recognition among real estate developers, private collectors, and HNWI circles for delivering turn-key solutions with discretion, creativity, and cultural understanding.

The studio's services include comprehensive interior architecture, furnishing consultancy, art direction, spatial styling, and project execution — all customized to serve clients seeking exclusivity and refinement.

About Harooni Design:

Harooni Design is a boutique interior architecture studio based in Dubai, serving discerning clients across the UAE and the wider GCC. With a commitment to excellence, artistic vision, and personalized service, the firm transforms interiors into living narratives — where design becomes a statement of sophistication.
