

XRP Surges Over 20%: JA Mining Unveils Dual-Income Cloud Mining Contracts to Capture Daily Yield and Token Upside

XRP cloud mining platform offers both fixed returns and crypto appreciation amid renewed investor interest

Warwick, Warwickshire Jul 23, 2025 ([Issuewire.com](https://www.issuewire.com)) - XRP surged by more than 22% in the past 24 hours, reaching a new high of \$3.66 and driving daily trading volume above \$22.5 billion. The rally was fueled by the U.S. Congress passing landmark cryptocurrency legislation, including the Genius Act and the Digital Markets Clarity Act, along with a broader market uptrend in major digital assets such as Bitcoin and Ethereum.

Amid this market momentum, [JA Mining](#), a global **cloud mining platform**, announced the launch of its new XRP-compatible **dual-income mining contracts**, allowing investors to earn **fixed daily income** and benefit from **token price appreciation**. The platform supports direct investments with XRP, BTC, ETH, DOGE, and other leading cryptocurrencies—no mining hardware or technical expertise required.

Dual-Income Model for Crypto Investors

The new JA Mining model allows users to:

- Earn fixed daily payouts in USD-equivalent value

- Withdraw in the same cryptocurrency they invested
- Capture additional returns if the token appreciates during the contract term

Example: A user invests \$5,800 worth of XRP in a 3-day contract, earning \$249.60 daily for a total of \$748.80. If XRP appreciates by 10% during this period, the user also benefits from the increased value of the final crypto withdrawal.

XRP Highlights – Past 24 Hours

- **XRP hits new high:** XRP rose over 22%, touching \$3.66 and pushing its market capitalization beyond \$216 billion
- **Legislative tailwinds:** U.S. lawmakers passed major crypto bills supporting market clarity and stablecoin regulation
- **Derivatives surge:** XRP futures open interest crossed \$10.4 billion, signaling strong institutional engagement

Mining Contract Examples (Updated July 2025) LTC Classic Miner – \$200 | 2 Days | \$7/day → Total: \$14

DOGE Innovative Miner – \$2,420 | 3 Days | \$86.88/day → Total: \$260.63

DOGE Quality Choice – \$12,500 | 3 Days | \$535/day → Total: \$1,605

BTC Intelligent Innovation – \$55,600 | 2 Days | \$4,770/day → Total: \$9,540.96

BTC Efficient & Excellent – \$258,000 | 5 Days | \$24,664.80/day → Total: \$123,324
