

93Energy LLC is named a 2025 Top Solar Contractor

Chicago, Illinois Aug 6, 2025 ([Issuewire.com](https://www.issuewire.com)) - The renewable energy industry is entering a tumultuous time, with deep federal cuts to programs that stoked astronomical growth over the past four years. Still, the solar industry broke record after record in 2024, the largest single year of new capacity added to the grid by *any* energy technology in over two decades. 93Energy LLC is one of the companies that contributed to the milestone installation year and is recognized as [a 2025 Top Solar Contractor](#) by [Solar Power World](#).

The Top Solar Contractors List is the most recognized annual listing of solar contractors in the United States. It is compiled annually by industry magazine *Solar Power World* to recognize the work of solar installers to decarbonize the grid and support homegrown, local energy. Companies on the Top Solar Contractors List are grouped and listed by specific service (developer, electrical subcontractor, EPC, installation subcontractor, installer, sales partner), market (commercial, community solar, residential, utility) and state by 2024 installed capacity (in kWDC). 93Energy LLC is ranked at No. 233 in the nation.

“At a time when the federal government is doing everything it can to cut solar power down, the gigawatts put up by our 2025 Top Solar Contractors emphasize just how crucial it is to our nation’s energy mix,” said Kelsey Misbrener, managing editor of *Solar Power World*. “From the smallest residential projects to the largest utility-scale solar farms, these installations are keeping the lights on and keeping power affordable. We’re thrilled to recognize another outstanding class of Top Solar Contractors and look forward to persevering through legislative hurdles to celebrate our 15-year edition next year.”

The country installed [nearly 50 GW](#) of new solar capacity in 2024, with solar and storage accounting for 84% of all new electric generating capacity added to the grid. Companies on the Top Solar Contractors List are undoubtedly preparing for a tough hill on the solar coaster, but the need for quick buildout of new energy resources is only going to grow.

93Energy LLC employs 25 workers who installed nearly 4 MWs of solar power in 2024. The company help businesses unlock the full potential of solar power with smart, scalable energy solutions. Specializing in commercial solar panel systems, Operations & Maintenance (O&M), and cutting-edge

Battery Energy Storage Systems (BESS), we partner with organizations ready to take control of their energy future.

About Solar Power World

Solar Power World is the leading online and print resource for news and information regarding solar installation, development and technology. Since 2011, SPW has helped U.S. solar contractors—including installers, developers and EPCs in all markets — grow their businesses and do their jobs better.
