

## Arnaque Ou Fiable Launches Multilingual Scam-Alert Hub for Consumers

Independent consumer-protection site expands reach with scam alerts in seven languages, helping people detect fraud faster.

**Brussel, Belgium Feb 4, 2026** ([IssueWire.com](http://IssueWire.com)) - Arnaque Ou Fiable (Scam Or Reliable), the independent consumer-protection website, today announced the launch of its multilingual Scam-Alert Hub, a new section designed to help consumers worldwide recognize online fraud more quickly and respond with confidence.

The hub centralizes timely alerts, practical checklists, and expert analyses across seven languages: English, French, German, Spanish, Italian, Dutch, and Portuguese. It complements the site’s established product investigations and platform watchdog coverage, providing a single entry point for readers who need reliable guidance before making an online purchase.

Since its creation, Arnaque Ou Fiable has built a strong community of readers and contributors. The site has already collected over 125,000 consumer reviews and more than 13,000 detailed testimonies. These contributions enrich the editorial content and help uncover patterns of fraudulent behavior across multiple sectors, from e-commerce to subscription traps and phishing campaigns.

“Consumers across the world face similar scams every day. Our multilingual alerts hub helps people react faster and safer,” said René Ronse, founder of Arnaque Ou Fiable.

Beyond alerts, the hub offers plain-language explainers, step-by-step guides for safer online shopping, and resources for reporting scams to national authorities. Each article emphasizes clarity, source transparency, and actionable advice. The English-language section makes the content accessible to international readers and journalists monitoring cross-border fraud.

The initiative also invites consumers to submit reports of suspicious offers. Submissions are reviewed for verification and privacy before being integrated into the platform. This participatory model ensures that new scams are detected and documented quickly.

Readers can explore the Scam-Alert Hub at <https://arnaqueoufiable.com/en/alerts/> and discover the full site library at <https://arnaqueoufiable.com/en/>. A media kit with logo and screenshots is available on request.
