

CapeStart Expands Operations with New Office in Chennai to Support AI Center of Excellence

With goal of delivering reliable AI solutions for life sciences companies, CapeStart continues to build out GenAI expertise, services, and the MadeAi™ platform

Cambridge, Massachusetts Aug 11, 2025 ([Issuewire.com](https://www.issuewire.com)) - [CapeStart](https://www.capestart.com), Inc. , an AI solutions and services firm headquartered in Cambridge, MA, is expanding its AI Center of Excellence by opening an office in Chennai, India to continue to attract talented, innovative generative AI (GenAI) professionals. As IT teams around the world seek trusted GenAI experts, CapeStart's AI Center of Excellence will help the company reach more innovators with its award-winning, GenAI-aided, MadeAi™ Platform and AI-powered Expert Services Team. The AI Center of Excellence focuses on attracting experienced AI resources with progressive engineering skills, while continuing to lead the market with GenAI innovation and expertise.

With the addition of the Chennai office, CapeStart's AI Center of Excellence is geographically positioned in the top AI hubs around the world, supported by the company's existing presence in Cambridge MA, Ottawa, Dubai, and Nagercoil in the Cape of India. These offices serve 100+ CapeStart customers across over 35 industries via CapeStart's PhD-led machine learning (ML) team.

CapeStart's MadeAi is the foundational GenAI platform for the company's AI software and services. The award-winning platform has a flexible architecture to support different LLMs and an API infrastructure to interface with multiple internal and external databases and applications. In addition, CapeStart offers technology services that tailor the platform to customer needs and subject matter experts who operate GenAI applications and validate results. CapeStart experts also provide scale-out deployments for customers seeking to expand their operations.

In the life sciences, MadeAi streamlines key applications including literature reviews, global value dossiers (GVDs), meta-analysis, clinical evidence reports (CERs), and other clinical evidence synthesis. Developed with top 15 pharmaceutical companies, MadeAi-LR, CapeStart's literature review application, enables users to perform up-to 60% faster literature reviews, with more than 90% accuracy for title and abstract screening, data extraction, and summary completeness. Additionally, it provides more than 97% traceable and explainable results. Supported by CapeStart's AI-Powered Expert Services Team, MadeAi enables better-informed internal strategies, more rigorously prepared regulatory submissions, and more thoroughly researched publications.

"CapeStart's new Chennai office will help us to continue to evolve our AI Center of Excellence along with our MadeAi platform. GenAI expertise is a critical strength for our team as organizations rewire their operations for the AI era," said Gaugarin Oliver, founder and CEO of CapeStart. "Backed by the MadeAi platform and our larger global footprint, CapeStart's AI Center of Excellence provides a unique blend of GenAI technical prowess, industry experience, and forward-thinking research to help clients stay competitive as their markets expand and evolve with AI innovation."

CapeStart's Chennai office is located at Ocean Square 2A, South Phase Poomagal Main Road, in Guindy Industrial Estate, Chennai – 600032. For employment and other information, visit CapeStart at www.capestart.com.

About CapeStart

CapeStart helps organizations compete and win in the AI economy.
