

CoinyExchange Partners with Sumsub

CoinyExchange Partners with Sumsub to Deliver Verification for Global Crypto Users

Abilene, Texas Aug 14, 2025 ([Issuewire.com](https://www.issuewire.com)) - CoinyExchange a white label crypto exchange provider who enables businesses to launch and scale their secure digital exchange platform today announced it has entered into a strategic partnership agreement with Sumsub a well-known identity verification and KYC/AML compliance provider.

In this integration, Coiny Exchange clients will henceforth gain the ability to do a seamless user onboarding, as well as existing global regulatory requirements on KYC (Know Your Customer) and regulatory policies on AML (Anti-Money Laundering). Sumsub will become a full part of the CoinyExchange white label infrastructure so that exchanges that [Coiny Exchange](#) powers will be able via a wide variety of integrations to conduct rapid, secure, compliant identity verification on millions of customers across the world.

“Our mission has always been to equip our partners with enterprise grade technology and tools to launch compliant, secure, and scalable exchanges,” said CEO of CoinyExchange. “By integrating Sumsub, we are enabling our clients to meet global compliance standards with confidence while offering their users a frictionless onboarding experience.”

Sumsub solution verifies user identities across 220+ countries and territories and supports 14000+

document types with real time data validation. The integration ensures compliance with major regulatory frameworks including FATF, EU AML directives, and FinCEN guidelines making it ideal for businesses operating in highly regulated environments.

*"We are thrilled to support CoinyExchange in enhancing the compliance capabilities of their platform," said **Andrew Sever** Co-founder and CEO at Sumsb. "Our shared commitment to global standards in security, user experience, and compliance makes this partnership a strong step forward in raising the bar for crypto platforms around the world."*

The partnership adds up to CoinyExchange strong white label offering that encompasses spot, futures and P2P trading engines, staking, fiat on/off ramps, referral systems, and an enterprise grade backend able to process up to 100,000 Tps.

With Sumsb now integrated into its onboarding pipeline, Coiny Exchange is renewing its commitment to ensure that exchange operators are able to instill a sense of trust among users and regulators alike.
