

DDi added more AI Agents to enhance Regulatory Strategy, Planning, and Project Actions

New AI-powered agents deliver regulatory insights, impact analysis, and smarter planning for life sciences.

Monmouth County, New Jersey Aug 20, 2025 ([Issuewire.com](https://www.issuewire.com)) - To its existing [AI Agents](#), DDi added more covering **Strategy, Planning, Intel, Projects and Actions**, introducing specialized agents designed to streamline regulatory compliance, assess business impacts, and strengthen strategic planning. These intelligent tools empower life sciences to navigate regulatory complexity with confidence.

Regulatory Insights Agent:

- Tracks evolving global regulations in real time
- Provides clear, AI-curated summaries for compliance teams
- Reduces risk by ensuring leaders stay ahead of policy changes

Regulatory Impact Agent:

- Analyzes how regulatory changes affect operations, markets, and strategy
- Delivers scenario-based impact assessments
- Helps organizations proactively adjust strategies to remain compliant and competitive

Planning Agent:

- Transforms static plans into dynamic, AI-powered roadmaps
- Supports forecasting, resource optimization, and scenario planning

- Aligns strategy with execution for measurable results

Together, these AI Agents create an integrated framework that enhances decision-making, strengthens compliance, and drives business agility in a rapidly evolving landscape.

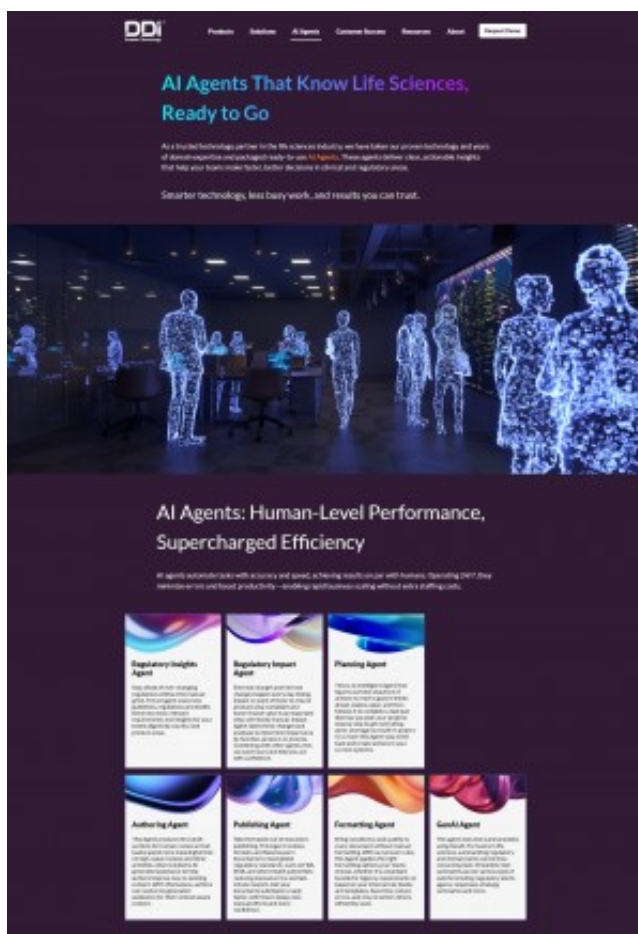

“Organizations today face mounting regulatory pressures alongside the need for faster planning cycles,” said Mahesh Malneedi, CTO at DDi. “Our AI Agents simplify complexity, turning challenges into opportunities for smarter growth.”

With its growing suite of AI Agents, DDi continues to deliver intelligent, adaptable solutions that help enterprises thrive at the intersection of regulation, strategy, and execution.
