

DLMining Releases 2025 ETH Contract Innovation Plan, Ushering in a New Era of Inclusive Mining

Sydney, New South Wales Aug 2, 2025 ([IssueWire.com](https://www.issuewire.com)) - DLMining Releases 2025 ETH Contract Innovation Plan, Ushering in a New Era of Inclusive Mining

[DLMining](#), a leading global fintech platform, today officially released its 2025 ETH Contract Innovation Participation Plan. This plan significantly lowers the barrier to entry through technological innovation, allowing more investors to conveniently participate in the Ethereum ecosystem's value growth. This release coincides with the third anniversary of Ethereum's transition from Proof-of-Work to Proof-of-Stake (PoS). Despite the change in the mainnet mining model, the ETH-related derivatives contract market remains robust.

The Ethereum Ecosystem Continues to Prosper, with Layer 2 Networks Reaching New Highs

According to the latest market data, as of the fourth week of July 2025, the ETH price remained stable at \$3,790, with on-chain activity continuing to climb. Notably, Layer 2 solutions such as Arbitrum and Optimism have reached record highs in TVL, further solidifying Ethereum's dominance in the smart contract space. Furthermore, innovative projects such as AI protocols and Reliable Transaction Authorization (RWA) platforms continue to enter the Ethereum ecosystem, demonstrating a strong

network effect.

Diversified Paths to Participate in ETH Contracts

Although the Ethereum mainnet has completed its consensus mechanism transition, investors can still participate in ETH-related contracts through various means:

Participate in PoW contracts through derivative chains such as ETHW and ETC

Utilize platforms like DLMining to schedule GPU computing resources

Combining diversified income strategies such as ETH staking and DeFi protocols

Four Core Advantages of DLMining's Innovative Solution

Intelligent Resource Scheduling: Automatically matches the optimal computing power configuration

Visual Management System: Supports real-time mobile monitoring

Automated Settlement System: Provides flexible fund deposits and withdrawals

Zero-barrier participation: No specialized hardware required

Market analysts noted: "ETH derivative contracts not only maintain price correlation with mainnet assets but also provide new tools for risk hedging and asset allocation. DLMining's innovative solution makes this market accessible to everyday investors."

A New Paradigm for Inclusive Finance

DLMining's newly launched solution places a strong emphasis on user experience, offering:

Providing a [\\$15 bonus for sign up](#).

Simplifying the operational process.

Optimizing the visual interface.

Strengthening risk control mechanisms.

Effectively addressing the high technical barriers and complex operations associated with traditional contract participation.

About DLMining

Founded in 2014 and headquartered in the UK, DL Management Solutions Ltd (DEFI name: DLMining) is a leading global digital asset financial services platform, serving over 100 countries and regions and serving over 5 million users. The platform supports innovative income plans for mainstream digital assets such as BTC and ETH.

New users receive a \$15 cash bonus upon registration.
