Dover, Delaware Aug 21, 2025 ([IssueWire.com](https://www.issuewire.com)) - **Eagle Solar Supply**, a reliable distributor of **solar energy products** and a **wholesaler of solar products in the USA**, today made available an extended line of high-performance **solar energy equipment** and [LED lighting solutions](#). The new development solidifies the company as a single-source provider of **sustainable energy** and **lighting**

solutions for residential, commercial, and industrial use.

They have created an extensive network and connect you with the United States-based contractors, installers, and businesses with competitively priced, high-quality products complemented by technical expertise. With the recent expansion, the company now provides one of the widest product catalogs available in the market, including:

- **Solar Panels: High-efficiency modules designed for maximum output and reliable long-term performance**
- Hybrid Inverters: Smart power management for grid-tie and off-grid applications
- Hybrid Batteries: Long-lasting storage units for round-the-clock power availability
- Solar Installation Accessories: Such as mounting systems, wiring, and specialty hardware to make installations easier
- LED Indoor Lighting: Energy-saving solutions for offices, warehouses, retail outlets, hospitality establishments, and residences
- LED Outdoor Lighting: Weather-tight fixtures for parking lots, walkways, security lighting, and landscape lighting

The role of a supplier of **solar energy products** for the company is more than just equipment supply. By using a wholesale model, we offer competitive prices and fast delivery, while maintaining flexibility for both small residential projects and larger commercial jobs.

A full line of [LED indoor lighting](#) and [LED outdoor lighting](#) has been added to the current product offering due to the growing interest and demand for cost and energy efficient lighting products. They are designed with long lifespan, low maintenance, and unchanging light quality, and are best suited for users who desire both cost savings and environmental advantages.

“Energy efficiency is no longer just an option; it’s an expectation,” added the founder and CEO, Karan Bhatia. “Whether you’re planning a multi-megawatt solar project or upgrading your lighting systems, our customers know they can count on us for dependable products and knowledgeable support.”

With the pace of **renewable energy** implementation increasing throughout the U.S., Eagle Solar Supply continues to be positioned ahead of the market's demands by procuring and distributing innovative, affordable, and sustainable products. The expansion of the company's supply chain responds to its capacity to reach customers across the country and utilize the latest solar power & lighting technologies.

About Eagle Solar Supply
