

FINNU: Driving the New Era of Global Investment with AI + Capital

Anchorage, Alaska Aug 20, 2025 ([Issuewire.com](https://www.issuewire.com)) - Finnu Strategic Investment Group Inc. is a U.S.-registered international investment company specializing in global capital allocation and fintech innovation. The company serves high-net-worth individuals, family offices, corporate clients, and professional institutions, offering a full spectrum of services, including asset management, investment advisory, cross-border transaction structuring, and private fund establishment.

Finnu traces its roots back to 1992, when it began as a family-based capital management platform, accumulating decades of experience in disciplined investment and global asset allocation. Leveraging its strong family capital management heritage and international vision, the company has built a robust capacity for cross-border and cross-sector resource integration.

With the rapid acceleration of global technological transformation — where artificial intelligence, blockchain, and other frontier technologies are reshaping business logic and capital markets — Finnu identified a paradigm shift in traditional investment models. In response, the company initiated a comprehensive strategic transformation in 2022, formally expanding into AI, blockchain, digital assets, and intelligent quantitative trading, and launched its new brand “FINNU”, with “AI + Capital” as its core development theme for this new stage.

As part of this forward-looking strategy, in early 2024 FINNU announced its strategic investment in AIMBIT Exchange, marking a significant step in its commitment to digital asset trading and blockchain infrastructure development. AIMBIT is designed to build a global, multi-asset, fully compliant trading

ecosystem, equipped with AI-driven risk control systems, advanced liquidity solutions, and a user-friendly interface to deliver a secure, efficient, and intelligent trading experience.

Today, FINNU is committed to leveraging technology to drive capital growth, offering global clients more efficient, secure, and forward-looking wealth management and capital operation solutions, while actively contributing to the development of the next-generation financial ecosystem.
