

FOLOMOV Debuts A7 Dual-Tone Flashlight on Kickstarter

Next-generation pocket torch fuses laser-grade spotlight with flood array, doubles as 5,000 mAh power bank

The image is a promotional graphic for the FOLOMOV A7 flashlight on the Kickstarter platform. It features a black flashlight being held by a hand, with a bright beam of light shining out. The background is dark with some foliage. Text elements include the 'KICKSTARTER' logo in green and 'FOLOMOV' in white. Four icons with text describe the flashlight's features: a sun icon for '3000 Lumens Brightness', a battery icon for '26650 Battery 5000mAh', a power bank icon for 'Power Bank Function', and a dual-light icon for 'Dual-Light Mode'. At the bottom, a large text block reads '3000LM Dual-Light Flashlight - Bright, Versatile, Ready for Anything'.

3000LM Dual-Light Flashlight - Bright, Versatile, Ready for Anything

Hong Kong, Hong Kong S.A.R. Aug 19, 2025 ([Issuewire.com](https://www.issuewire.com)) - [FOLOMOV](https://www.fole.com), the Hong Kong-based lighting innovator known for pushing lumen limits without adding grams, today launched its latest creation: the A7 flashlight. Live now on [Kickstarter](https://www.kickstarter.com), the A7 pairs a 20-watt warm-white laser center with six cool-white flood LEDs, delivering a 3,000-lumen dual-tone beam that can cut through fog or gently illuminate a campsite without stealing night vision.

At 255 grams and the size of a commuter mug, the A7 contains a 5,000 mAh 26650 cell capable of 130 hours on whisper mode or a full smartphone recharge in emergency situations. A single side switch cycles four brightness levels, bursts into SOS/strobe, and toggles the signature “blend” mode—both tones firing simultaneously for a sunset-like wash that reaches 220 meters.

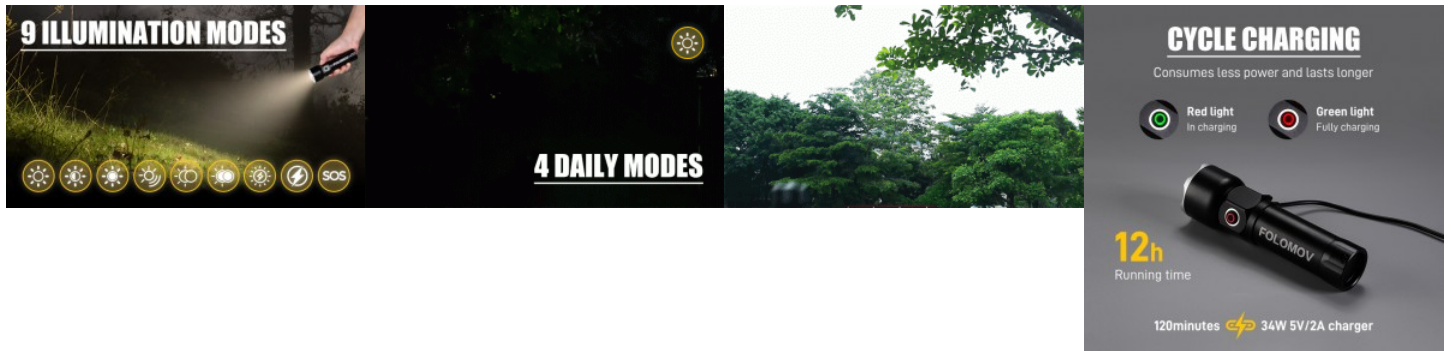

“We didn’t just upgrade specs,” said spokesperson. “We rewrote the rulebook for what a pocket light can do.” The IPX6-sealed aluminum body survives downpours and drops, while USB-C fast-charge brings the unit from empty to full in roughly two hours.

Early-bird backers receive the A7 at launch pricing and lifetime support. Campaign details and real-time updates are available on the official [Kickstarter](https://www.kickstarter.com) page.

About FOLOMOV

Founded in 2018, FOLOMOV specializes in ultra-portable lighting solutions for adventurers, first responders and everyday carry enthusiasts. The company’s previous crowdfunding campaigns have

shipped to 48 countries and continue to earn industry recognition for reliability and innovation.
