

Former Navy Rescue Swimmer Releases Gripping Military Thriller Set in the Pacific Northwest

Bloodline of Redemption blends real-world naval warfare, Cold War secrets, and a harrowing survival story — with scenes unfolding in Snoqualmie and the Cascades.

Seattle, Washington Aug 5, 2025 ([IssueWire.com](https://www.IssueWire.com)) - Bestselling author and Everest solo summiteer **Brian Dickinson** is back — this time with a high-stakes military thriller that blends his real-life survival experience with authentic naval warfare. *Bloodline of Redemption* is now available for **preorder** in paperback and ebook, with an official release date of **September 17, 2025**.

A rogue Russian submarine. A buried Cold War vendetta. A hunted American aircrew fighting for redemption across the U.S. and into the icy peaks of the Pacific Northwest's Cascade Mountains. *Bloodline of Redemption* drops readers into a world of covert operations, geopolitical tension, and raw survival — inspired by Dickinson's own time as a U.S. Navy Aviation Rescue Swimmer.

"I wanted this story to feel real — because a lot of it is," says Dickinson. "The terrain, the training, the pressure of command... even the scenes set in Snoqualmie are drawn from places I know firsthand."

Dickinson's real-life accomplishments have earned national media attention, including coverage by CNN, Fox News, and The Huffington Post. His first book, *Blind Descent*, chronicled his miraculous solo descent from Mount Everest after going blind near the summit. His follow-up, *Calm in the Chaos*, shared true rescue missions from his and others' Navy careers — a theme he continues to explore on his popular podcast, **Calm in the Chaos**, which features untold stories from elite military operators.

With *Bloodline of Redemption*, Dickinson brings readers into a new realm — combining fiction with precision detail, and storytelling with the grit of lived experience.
