

Fox-Jek: Gojek Clone App Introduces Game-Changing Features for Smarter On-Demand Services

Seamless ticketing, loyalty rewards, advanced search, HD video consultancy, and real-time tracking set a new standard for super apps.

Rajkot, Gujarat Aug 25, 2025 ([Issuewire.com](https://www.issuewire.com)) - Fox-Jek, a next-generation [Gojek Clone App](#), has rolled out powerful new features designed to improve user experience and help businesses drive higher engagement. From smarter customer support to advanced loyalty programs and video consultancy, these updates position Fox-Jek as a complete solution for multi-service app users and providers.

One of the biggest highlights is the Seamless Ticket Support System. Users can raise tickets directly from the app whenever they face an issue—be it a failed payment, delayed delivery, or service complaint. With real-time tracking, users stay informed at every step, while businesses can view detailed reports and documents from a feature-rich dashboard for faster resolution.

To encourage repeat usage, Fox-Jek now features a Customer Loyalty Program. Every order or booking earns reward points, which users can later redeem. Businesses can run customized campaigns like double rewards during festive seasons, limited-time offers, or special discounts - keeping customers coming back again and again.

The upgraded Advanced Search makes discovering services effortless. Users can filter results by price, location, ratings, or categories, while the intelligent search engine corrects incomplete or misspelled queries. This ensures faster access to services while improving visibility for businesses.

With rising demand for remote services, Fox-Jek now offers High-Quality Video Consultancy. Users can connect with doctors, fitness trainers, tutors, or legal advisors via encrypted HD video calls. Flexible

booking, rescheduling options, and secure connections make professional services more accessible than ever.

Another standout update is Real-Time Issue Tracking & Resolution. Users receive instant updates about their complaint status, reducing uncertainty and frustration. Issues are automatically routed to the right department, ensuring quick responses. Businesses can also integrate chatbots and live agents for 24/7 assistance.

Finally, Fox-Jek introduces Customizable Rewards & Promotions. Businesses can send personalized offers based on user behavior, purchase history, or service usage. Referral bonuses, exclusive discounts, and priority bookings give customers more reasons to stay loyal.

These new features make Fox-Jek a future-ready Gojek Clone App, helping businesses strengthen customer trust, improve retention, and stand out in the competitive on-demand market.
