

GHIBLI Launches GHIBLI.UNO, the Official Storytelling Hub for the Ghiblification Movement

More than a meme coin site, GHIBLI.UNO serves as a cultural hub where community, creativity, and transparency drive the next chapter of the Ghiblification movement.

Ghibli.UNO

The Beginning of
Ghiblification

San Francisco, California Aug 27, 2025 ([IssueWire.com](https://www.issuewire.com)) - The GIBLI community today announced the launch of [GHIBLI.UNO](https://www.ghibli.uno), the official storytelling hub for the **Ghiblification movement**. GIBLI is a **Solana-based meme coin launched in March 2025** that has quickly evolved into a cultural phenomenon, combining AI-powered art, community-driven storytelling, and crypto engagement. GIBLI.UNO is designed to be more than a typical meme coin landing page—it serves as a platform where culture, creativity, and transparency converge.

Through episodic chapters, starting with *Episode 1: Pump.fun Meets GIBLI*, the site chronicles the project's journey while inviting the community to participate directly. Holders and fans can take part in contests, spotlights, and co-creation opportunities, contributing art, content, and stories to expand the Ghiblification universe.

Alongside its cultural initiatives, GIBLI.UNO provides full transparency with a live whitepaper, pitch deck, and roadmap updates, establishing itself as the central reference point for investors and newcomers alike.

"The launch of GIBLI.UNO marks the next chapter of Ghiblification," said the GIBLI CTO Team. "This is where crypto meets culture, and where our community isn't just holding a token—they're helping write a living story."

Since its March 2025 launch on Solana, **GIBLI** has grown into one of the most dynamic meme coin movements of the year, driven by an engaged global community and innovative storytelling. With GIBLI.UNO, the project continues its mission to prove that meme coins can transcend speculation and become thriving cultural ecosystems.
