Los Angeles, California Aug 7, 2025 ([Issuewire.com](https://www.issuewire.com)) - The bright new face of the next generation, İremnur Ürküt, has officially stepped into the spotlight of global cinema by joining the main cast of the Oscar-aimed Hollywood feature “Language of Shadows.” Produced by Golden Gate Media Films California and helmed by award-winning filmmaker Sean GK, this marks a major milestone in İremnur’s rapidly rising career.

At just 21 years old, İremnur is currently a university student and has already built a successful modeling background. She began her journey in cinema with the indie film “Lipstick,” also written and directed by Sean GK. Recognizing her natural talent and charisma, GK provided her with private acting training, preparing her for the international stage.

İremnur is now the first and only Turkish actress to join the lead cast of Language of Shadows, a philosophical thriller poised for major recognition at international festivals. As part of her commitment to the role and global career, she will soon travel to the United States to continue her acting and English language education.

In addition to her Hollywood debut, İremnur Ürküt has also been cast in the Turkish national TV drama “Kayıp Yıllar”, a 300-episode series co-produced by Golden Gate Medya and Altın Adam Medya, which will air on a leading Turkish channel.

Sean GK commented,

> “İremnur represents the future — talented, passionate, and ready for the world stage. Her dedication and screen presence will take her far beyond borders.”

With her entry into a major Hollywood production and a national Turkish TV series simultaneously, İremnur Ürküt is proving to be one of the most promising international stars of her generation.
