

Innovative 2-in-1 45W GaN Charger + 10,000mAh Power Bank Launches on Kickstarter

QUANDES LLC introduces a lightweight GaN fast charger combined with a high-capacity power bank, designed to simplify travel and everyday charging.

Newark, Delaware Aug 21, 2025 ([IssueWire.com](https://www.issuewire.com)) - Tech startup **QUANDES LLC** has unveiled a breakthrough in portable charging: a **separate 45W GaN fast charger combined with a 10,000 mAh power bank**, now live on Kickstarter. Designed for travelers, students, and remote workers, the device eliminates the need for carrying multiple bulky chargers by integrating **GaN fast charging, wireless charging, built-in cables, and a compact power bank**, all in one.

Unlike traditional power banks, the QUANDES charger allows users to **charge devices and the power bank simultaneously**. Its lightweight design and high-speed GaN technology deliver reliable performance while fitting easily into any pocket or bag.

"We created this because people are tired of juggling chargers and cables," said a QUANDES spokesperson.

"With our device, you can travel lighter, charge faster, and stay powered all day without the clutter."

The Kickstarter campaign offers exclusive early-bird pricing for backers, including bundle options with significant discounts compared to future retail. With a funding goal of \$5,000, the campaign has already attracted support from early adopters who recognize the need for **smarter, more efficient charging solutions**.

The project is live until **October 8, 2025**, and supporters can secure their unit today.
