

Jemstone Bathe, MD: Internist at Marshfield Medical Center – Rice Lake, Championing Patient-Centered Care

Specializing in Gender-Affirming Care, Hormone Replacement Therapy, and Supporting the LGBTQA+ Community

New York City, New York Aug 19, 2025 ([IssueWire.com](https://www.issuewire.com)) - Marshfield Medical Center – Rice Lake is excited to announce the continued dedication of Jemstone Bathe, MD, a dedicated internal medicine physician with a lifelong commitment to helping others. Dr. Bathe brings a wealth of experience and a unique perspective to her practice, particularly in providing comprehensive care to underserved populations, including LGBTQA+ patients.

Dr. Bathe's journey into healthcare began at the young age of 15 when she started as an EMS explorer, responding to emergency calls with her hometown ambulance service. By the age of 18, she earned her EMT license and contributed to the central service team at Western Michigan University, where she honed her skills in sterilizing equipment and managing essential medical supplies.

She pursued her passion academically, earning a Bachelor of Arts Degree in Biomedical Sciences from Western Michigan University, where she graduated Cum Laude in 2010. Her pursuit of medical knowledge culminated in a Doctor of Medicine Degree from Wayne State University School of Medicine in 2016. Following her graduation, Dr. Bathe completed her residency in internal medicine at the Detroit Medical Center, where she gained invaluable experience in treating complex cases within one of the most underserved cities in the United States.

Dr. Bathe's fascination with the intricacies of the human body led her to specialize in internal medicine. "I couldn't decide on just one system, so I wanted to be a Jill of all trades and study them all," she explains. This holistic approach allows her to provide comprehensive care while collaborating with specialists across various fields.

At Marshfield Medical Center – Rice Lake, Dr. Bathe is focused on delivering patient-centered care. She emphasizes the importance of involving patients in their own healthcare decisions. "My job as your physician is to be like Dr. McCoy to your James Kirk. I provide the best evidence-based recommendations and work to meet you where you're at, but ultimately, you're the captain of your ship. I inform and guide you, but I will always respect your autonomy," she states.

As Dr. Bathe continues her work at Marshfield Medical Center, she remains committed to fostering lasting patient relationships while actively promoting the health and well-being of the Rice Lake community. "While I've always had the passion to help people, I also wanted to be a part of our community's foundation so that I can help ensure no one is left behind," she shares.
