

JTS Plumbing and Heating Launches Affordable Boiler Replacement Service

JTS Plumbing and Heating launches UK-wide boiler replacement service to cut energy bills and boost efficiency. With installs, repairs, and servicing, they offer competitively priced, full heating solutions with expert aftercare.

Enfield, London Aug 16, 2025 ([Issuewire.com](https://www.issuewire.com)) - Leading domestic heating experts [JTS Plumbing and Heating](https://www.jtsplumbingandheating.co.uk) have announced the nationwide rollout of their new [boiler replacement service](https://www.jtsplumbingandheating.co.uk/boiler-replacement-service), designed to provide homeowners across the UK with a reliable, professional, and cost-effective way to upgrade outdated heating systems.

With energy costs and household efficiency firmly in the spotlight, JTS aims to deliver a solution that combines expert advice, competitive pricing, and high-quality installation. The new service ensures customers benefit from reduced energy consumption, lower utility bills, and the peace of mind that comes from having their new system fitted by fully certified Gas Safe engineers.

Outdated and inefficient boilers often result in inflated energy bills and higher maintenance costs. By introducing this dedicated boiler replacement service, JTS is providing a straightforward option for

homeowners looking to modernise their heating. The service covers every stage of the process, from the initial system assessment and tailored product recommendations to installation and full post-installation checks. JTS ensures that each customer receives a boiler suited to their household's specific needs, delivering both comfort and long-term energy savings.

Speaking on the launch, a JTS spokesperson said: *"We're responding to the growing demand for smarter, cost-effective heating. Our boiler replacement packages are competitively priced, installed to the highest safety standards, and backed with full aftercare. This is about offering a complete service that makes it easy for homeowners to make the switch to a more efficient heating solution."*

The company's new service goes beyond simple replacement. In addition to fitting new boilers, JTS supports homeowners in exploring a variety of energy-efficient options, including modern combi boilers and advanced condensing systems, which are recognised for their ability to maximise output while minimising energy waste. Customers are also guided through available financial assistance, including government grants and incentives that can help to reduce the cost of installation.

Every installation carried out by JTS includes the complete removal of the old boiler system and safe disposal in line with strict environmental standards. Once fitted, the new system undergoes a comprehensive performance check to confirm efficiency and safety. Customers also benefit from a workmanship guarantee and ongoing customer support, ensuring that JTS remains a trusted partner long after the installation has been completed.

This latest addition strengthens JTS's position as a full-service heating provider in the UK. The company already offers a broad range of solutions, including gas boiler installation, boiler repair, and maintenance packages, and the new replacement service complements these existing offerings perfectly.

By combining technical expertise, professional service, and a customer-first approach, JTS Plumbing and Heating continues to lead the way in helping households make the transition to modern, energy-efficient heating systems.

For more information about the boiler replacement service or to arrange a consultation, homeowners are encouraged to contact JTS Plumbing and Heating directly.
