London, United Kingdom Aug 11, 2025 ([Issuewire.com](https://www.issuewire.com)) - Ishkama announces the release of "[The Book of Prosperity: 25 Lessons From Extraordinary Achievers Who Lead From Within](#)", a groundbreaking collection of biographical stories that challenges conventional definitions of success. The book is now available on Amazon, Barnes & Noble, Waterstones, and independent bookstores

worldwide.

The anthology brings together the inspiring journeys of 25 remarkable leaders who have discovered that authentic prosperity begins from within. From ex-presidents and diplomats to healthcare pioneers, entrepreneurs, and community advocates, each story reveals how sustainable success flows from self-awareness, moral courage, and service to others.

"True prosperity isn't about what we accumulate for ourselves, but about the conditions we create for everyone to thrive," said Prof Dr Amb. Abhnash Kaur Bains, author and founder of IGC Magazine, which reaches over 500,000 readers across 50 countries. "These stories prove that the most impactful leaders are those who understand that lasting change comes from authentic inner work combined with dedicated service to others."

Featured leaders include:

- **Dr. Ameenah Gurib-Fakim**, former President of Mauritius and renowned scientist
- **Dr. Pradeep Singh Rajpurohit**, Indian diplomat and High Commissioner to Trinidad and Tobago
- **Lady Ambassador Dr. h.c. Robbie Motter**, founder of Global Society for Female Entrepreneurs
- **Dr. Kamilla Kamaruddin**, healthcare advocate and RCGP Inspire Award winner
- **Virendra Sharma**, former MP who served Ealing Southall for 17 years

The book addresses critical contemporary challenges including healthcare equity, environmental conservation, women's empowerment, and community development. Each chapter demonstrates how personal transformation becomes the foundation for creating positive global impact.

"This collection arrives at a crucial time when authentic leadership is desperately needed," noted Dr. Marina Nani, founder of MTN Press and Rich Woman Society™, who wrote the book's foreword. "These aren't theoretical concepts but lived experiences of individuals who have transformed personal challenges into sources of strength and service."

Key themes explored include:

- Leading from authenticity rather than authority
- Transforming adversity into opportunity for service
