

New Partnership: SENTRIQS and PATRICK CUMBA, LLC | Consulting Partner to Provide Ultra-Secure Collaboration Tools

The partnership combines SENTRIQS' encrypted communication technology with PATRICK CUMBA's national security expertise to deliver secure connectivity in remote and high-risk locations worldwide.

Savannah, Georgia Aug 28, 2025 ([IssueWire.com](https://www.issuewire.com)) - [SENTRIQS](#), a provider of ultra-secure collaboration and encryption technology, today announced a sales partnership with [PATRICK CUMBA, LLC | Consulting](#), a company specializing in national security and critical infrastructure protection. Together, the companies will make it easier for government, military, and commercial organizations to use highly secure communications in remote or sensitive locations worldwide.

PATRICK CUMBA, LLC | Consulting provides advice and support for national security and infrastructure protection programs that require government clearance. The company's expertise lies in identifying advanced technologies with security applications and helping organizations put those tools to work in essential operations. Led by Patrick Cumba, the company draws on his three decades of experience in counterterrorism, counterintelligence, and law enforcement.

"Patrick and his team work extensively with government, military, and commercial organizations that have elevated security requirements," said Damien Fortune, CEO of SENTRIQS. "Their deep understanding of these environments makes the company an ideal partner as we expand our secure communication services into more complex locations."

About PATRICK CUMBA, LLC | Consulting

Patrick Cumba, COO & President, has more than 30 years of experience in counterterrorism, counterintelligence, signals intelligence, and law enforcement. His company specializes in strategic and operational consulting for national security and infrastructure protection, including international protective operations and safety programs. The company provides security support and practical guidance for organizations carrying out sensitive missions around the world.

About SENTRIQS

SENTRIQS provides ultra-secure collaboration and encryption technology that helps organizations protect their most sensitive information from cyberattacks. Its products are built on the latest security standards and are designed to be simple to deploy and manage across today's mobile and distributed workforces.
