

New Report Unveils Real User Trends Behind the AI Girlfriend Boom in 2025

AlGirlfriends.ai Publishes Groundbreaking Industry Report Based on 2.1M+ Sessions Across 80 Countries

Staten Island, New York Aug 7, 2025 ([Issuewire.com](https://www.issuewire.com)) - The emotional AI companion market is no longer a fringe concept—it's a global phenomenon. A new **industry report** from [AlGirlfriends.ai](https://algirlfriends.ai) dives deep into how and why millions of people are turning to **AI girlfriends** for emotional companionship, fantasy, and meaningful digital relationships.

Based on over **2.1 million anonymized user sessions**, the **AI Girlfriend Industry Report 2025** is one of the first of its kind: a fully transparent, data-driven look into how real users engage with emotional AI platforms. The report analyzes engagement metrics, survey responses from 3,500+ users, and emerging behavioral trends that are shaping this fast-growing space.

Key Findings from the Report Include:

- **67%** of users seek AI girlfriends for emotional companionship
- Users who combine voice + visual features stay **3x longer** on the platform
- Over **70%** of surveyed users feel emotionally connected to their AI character
- **Southeast Asia and Latin America** are among the fastest-growing user regions

- Industry is projected to surpass **\$1.3B by 2026**, growing at 28.6% annually

The report also examines **ethical risks**, including dependency, emotional overreliance, and idealized relationship models—offering a rare look at both the promise and pitfalls of AI-driven intimacy.

“People want connection without fear of judgment or rejection,” says Jack Taylor, Ph.D., lead author and cognitive psychologist at AIGirlfriends.ai. *“Our platform reflects a real shift in how people are navigating emotional needs in the digital age.”*

The **AI Girlfriend Industry Report 2025** is available now on the company’s official blog and includes a detailed methodology, privacy safeguards, and expert commentary from professionals in psychology, affective computing, and digital behavior.
