

Partum Softwares Marks 15+ Years of Reliable Inventory Management with Its Feature-Rich ERP for Businesses Across India

Trusted since 2009 by manufacturers, traders, agencies, and more for efficient inventory and billing solutions.

Erode, Tamil Nadu Aug 7, 2025 ([IssueWire.com](https://www.issuewire.com)) - **Partum Softwares**, a leading billing and ERP solution provider, proudly continues to serve Indian businesses with its flagship product, **Partum Inventory Software**. Launched in **2009**, the software has become a dependable solution for managing complex inventory operations across industries including **manufacturing, C&F, trading, distribution, job work, and retail**.

“Our focus has always been to simplify and streamline business operations through powerful, yet user-friendly tools. Partum Inventory Software reflects that goal and continues to evolve with business needs,” said a spokesperson for **Partum Softwares**.

What Is Inventory Management Software?

Inventory management software is a tool used to monitor, control, and organize stock across locations such as warehouses, stores, and godowns. It enables businesses to manage everything from purchases and sales to product assembly, delivery, and reporting.

Key Features of Partum Inventory Software:

- Manage **multi-branch stock, sales, purchase, delivery**, returns, and adjustments

- Track **IMEI, serial numbers, batch numbers**, and **expiry dates**
- Support for **BOM (Bill of Materials), product assembly, job work, and item conversion**
- Advanced **stock and item reports** (by brand, model, supplier, rack, and more)
- Full-fledged **accounting module**: Day Book, Ledger, Bank Book, Trial Balance, P&L, Balance Sheet
- Integrated **GST billing, E-way bill, E-invoice**, barcode and QR code generation
- **Speed billing**, multi-financial year, unlimited data storage
- **Auto backup**, cloud storage, and multi-user access with menu-level control
- Integration with **Tally (via XML export), Web SMS, WhatsApp, Email, POS terminals**, weighing scales, and mobile apps
- **Outstanding and pending reports**, credit limit management, and cheque printing

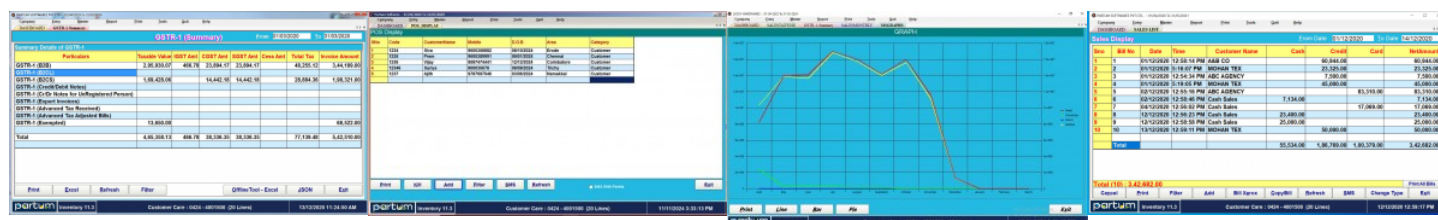

Businesses across India use the platform to gain control over their spare parts inventory, warehouses, and retail outlets — all from a single, scalable software solution.
