

PixelCrayons Expands Services to Offer Full-Stack eCommerce Solutions Globally

Noida, Uttar Pradesh Aug 27, 2025 ([Issuewire.com](https://www.issuewire.com)) - PixelCrayons, a trusted name in digital transformation, today announced the expansion of its offerings to provide end-to-end eCommerce solutions worldwide. From [eCommerce development](#) to [eCommerce marketing](#), the company is now positioned as a **single-point partner for growing eCommerce businesses**.

For many online brands, coordinating with multiple vendors—developers, marketing agencies, and consultants—creates delays, rising costs, and accountability gaps. PixelCrayons addresses this challenge by offering **integrated eCommerce services under one roof**, ensuring seamless execution and measurable business outcomes.

“Our goal is to eliminate what we call the *vendor coordination tax*,” said Vivek Awasthi, Vice President at PixelCrayons. “Instead of juggling 4–6 different providers, businesses can rely on us as a unified partner that not only builds their eCommerce store but also manages, markets, and optimizes it for growth.”

The company's expanded solutions are designed for:

- [B2C eCommerce Brands](#): Consumer-focused businesses seeking faster growth, reduced overhead, and clear accountability for results.
- [Agency Partners](#): Marketing agencies looking for reliable white-label eCommerce development without hiring overhead.
- [B2B Enterprises](#): Large organizations requiring enterprise-grade integrations with ERP, CRM, and complex B2B buying.

PixelCrayons has already helped numerous brands improve conversion rates, reduce vendor costs by up to 30%, and scale into new markets. With this expansion, the company aims to serve clients across the USA, UK, Australia, Middle East, and India.

The expansion reflects PixelCrayons' vision of becoming a global leader in eCommerce solutions, empowering businesses to scale confidently in a competitive market.

About PixelCrayons

PixelCrayons is a global eCommerce solutions partner helping businesses simplify growth by unifying development, management, consulting, and marketing under one roof.

The company works with fast-growing B2C brands looking to scale without vendor coordination challenges, agencies seeking reliable white-label eCommerce development, and B2B enterprises needing advanced integrations with ERP and CRM systems.

By combining technical expertise with marketing execution, PixelCrayons enables its clients to reduce costs, save time, and achieve measurable growth in competitive markets.
