

PixMod AI Launches to Revolutionize Fashion E-Commerce with AI-Powered Model Photoshoots

Founded by Akash Dubey and Neha Shukla, PixMod AI empowers global fashion brands and online sellers with instant, studio-quality model imagery at a fraction of traditional costs.

Introducing PixMod AI

AI-powered model photoshoots for your products

Launching 12th August 2025
Web & Google Play

Surat, Gujarat Aug 21, 2025 ([Issuewire.com](https://www.issuewire.com)) - PixMod AI, an innovative AI-powered fashion-tech platform, officially launches today to transform the way e-commerce sellers and fashion brands create product visuals. The platform allows users to upload plain product photos and instantly generate lifelike, studio-quality model photoshoots—without the high costs, time delays, or logistics of traditional

photography.

Founded by **Akash Dubey (Co-Founder & CEO)** and **Neha Shukla (CTO)**, PixMod AI is supported by a passionate team including **Pravin, Vikash, Tejal, and Shtrunjay**, all driven by the mission to democratize access to professional product photography. The startup is designed to empower everyone—from small boutique owners to global fashion retailers—by giving them the tools to compete with big brands through premium, AI-generated visuals.

“Every seller deserves beautiful visuals that sell,” said **Akash Dubey, Co-Founder & CEO of PixMod AI**. **“With PixMod AI, we’ve removed the biggest barriers in fashion e-commerce—cost, time, and resources. Now, anyone can transform a simple product image into a high-fashion model photoshoot in seconds.”**

Adding to this, **Neha Shukla, CTO of PixMod AI**, emphasized the importance of accuracy in product representation: **“Our AI engine ensures that every detail—fabric, embroidery, texture, and color—remains 100% true to the original product. The result is lifelike, trustworthy imagery that builds customer confidence and boosts sales.”**

Key Features of PixMod AI

- **AI-Powered Model Photoshoots** – Turn plain product shots into fashion-grade model imagery instantly.
- **True-to-Product Accuracy** – Every color, texture, and design element is preserved exactly.
- **Diverse Model Options** – Choose from multiple body types, skin tones, and styling preferences.
- **Affordable & Scalable** – A cost-effective solution compared to traditional photography studios.
- **High-Resolution Output** – Professional images optimized for e-commerce catalogs, ads, and social media campaigns.

Empowering Fashion Brands Worldwide

PixMod AI is not just a tool—it’s a creative partner for online sellers, fashion entrepreneurs, and global retailers. With the rise of social commerce and marketplaces, product visuals are the first impression for customers. High-quality imagery directly impacts sales conversions, and PixMod AI bridges the gap between expensive studios and the growing need for affordable, scalable solutions.

By offering **instant, realistic, and fashion-forward photoshoots**, PixMod AI is positioning itself as the future of product photography in the digital commerce era.

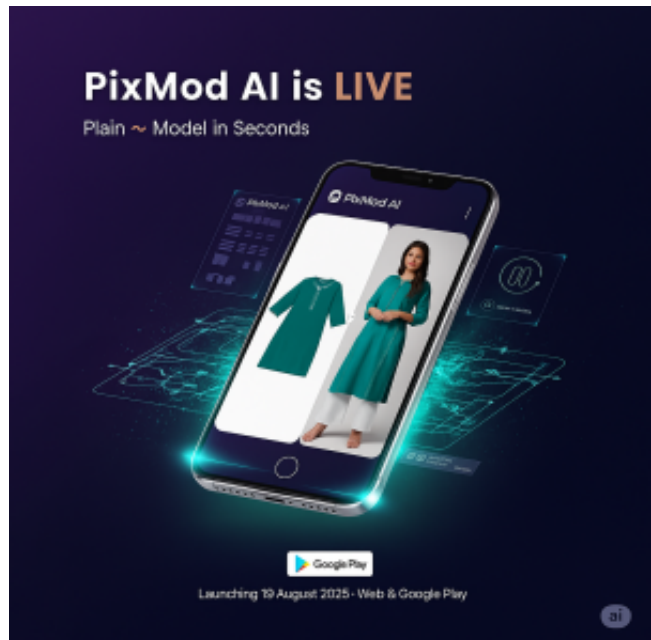

Global Availability

PixMod AI is available worldwide as a **web platform** and an **Android app**. Sellers, brands, and entrepreneurs can start creating professional photoshoots immediately without requiring technical expertise.
