Cupertino, California Jan 29, 2026 (IssueWire.com) - Last March, PosCow announced the launch of its **international checkout upgrade for Squarespace merchants**, designed to help U.S.-based businesses expand beyond domestic borders with ease.

With **instant international shipping quotes at checkout**, sellers can eliminate guesswork in fulfillment, ensuring customers see accurate costs in real time. PosCow also integrates seamlessly with **Stripe Tax**, providing automatic VAT/GST calculation to keep merchants compliant without manual effort.

In addition, PosCow empowers store owners with a **flexible discount system** far beyond Squarespace's built-in tools — including "Buy One, Get One," loyalty discounts, and custom promotions. Customers enjoy a seamless experience that mirrors Squarespace's native order flow, while merchants retain control of fulfillment, analytics, and inventory.

“As small businesses grow, their customers expect global reach and transparency at checkout,” said the PosCow team. “We built PosCow to give entrepreneurs enterprise-grade tools without leaving Squarespace.”

Beyond checkout, PosCow also leverages **AI-driven occasion-based marketing**, sending store owners ready-to-post content ideas for upcoming holidays and sales days — helping them stay relevant without the stress of daily content planning. PosCow also let business adopt virtual land business.vpark.io to generate collaborative affiliate marketing between supporters.

PosCow is now available for all U.S.-based Squarespace sellers of tangible goods. To learn more or activate international checkout today, visit <https://poscow.com>.
