

Power Plus Retailers Adds Pedrollo Pumps and Stainless Steel Centrifugal Solutions to Boost Water System Efficiency

Power Plus Retailers adds Pedrollo pumps, including stainless steel centrifugal pump models, to its lineup—offering durable, energy-efficient water solutions for homes, farms, and industries across the U.S.

Orlando, Florida Aug 5, 2025 ([Issuewire.com](https://www.issuewire.com)) - Power Plus Retailers, a trusted distributor of water management equipment, proudly announces the addition of advanced **Pedrollo pumps**, including the highly durable [stainless steel centrifugal pump](#) models, to its growing product lineup. This expansion

strengthens the company's commitment to offering long-lasting, energy-efficient pumping solutions for residential, agricultural, and commercial use.

Pedrollo, a globally recognized manufacturer, is known for delivering pumps that combine innovative engineering with reliable performance. The newly added [Pedrollo pumps](#) are built with high-grade materials and designed to handle demanding conditions with ease—whether for boosting water pressure, irrigation, or industrial fluid transfer.

The inclusion of **stainless steel centrifugal pump** options enhances the brand's offering by providing corrosion-resistant, low-maintenance solutions ideal for aggressive water environments. These pumps use centrifugal force to move water efficiently, making them suitable for a wide variety of applications, from household systems to large-scale operations.

With this new product range, Power Plus Retailers continues to serve as a one-stop destination for quality water solutions across the United States. Customers can explore the full catalog through a streamlined online shopping experience that caters to both individual users and professional contractors.
