

Red and White Evolves from Multimedia to Skill Education Institute with Broader Vision

Surat, Gujarat Aug 6, 2025 ([Issuewire.com](https://www.issuewire.com)) - Red and White, once known primarily as a multimedia training institute, has officially evolved into **Red and White Skill Education**—a modern, future-forward skill development institute that goes beyond computer training to offer a wide variety of professional, technical, and career-building courses. This transition reflects a powerful vision: to become one of Gujarat's most comprehensive hubs for skill-based learning across industries.

With campuses across Gujarat and a strong presence in **Surat** and **Ahmedabad**, Red and White has been a trusted name in IT and design education for over a decade. Thousands of students have launched successful careers in digital domains such as web design, animation, software development, and more. But now, the institute is stepping into a broader territory—welcoming new streams in **management, business, accounting**, and plans for even more verticals in the near future.

“The world of education is changing rapidly. We’re seeing a growing demand for practical, job-ready skills across all industries, not just tech,” says **Mr. Harshil Vaghasiya**, Founder of Red and White Skill Education. *“Our transformation reflects that shift. We are no longer just a multimedia institute—we are a skill education institute with a broader vision for the future.”*

A Shift Driven by Industry Demand

Red and White’s transition is not just cosmetic—it’s deeply rooted in evolving market needs. Today, employers aren’t just looking for degrees; they want candidates who can demonstrate real-world skills, hands-on expertise, and the ability to adapt quickly to technology and business trends.

In response, Red and White has expanded its curriculum to include:

- **Management and Leadership Programs**
- **Business and Accounting Courses**
- **Advanced Certification in Marketing & Entrepreneurship**
- **Finance, HR, and Operations Skill Development Modules**

These offerings are designed with a focus on **employability**, incorporating live projects, practical assignments, industry exposure, and expert-led training.

Still Strong in Tech—But More Than That Now

While the institute continues to be a leader in tech education, Red and White has made it clear that their goal is not to move away from technology but to build on that strong foundation. Courses like **UI/UX Design, Full Stack Development, Ethical Hacking**, and **Artificial Intelligence** remain pillars of the curriculum.

The institute’s popular [graphic design courses in Surat](#) continue to attract students from all over Gujarat, combining creativity with career opportunities in advertising, branding, and digital media.

Likewise, the newly introduced [data science course in Ahmedabad](#) is gaining traction for its industry-relevant modules in machine learning, analytics, and real-time business insights. And for budding developers, Red and White’s [php course in ahmedabad](#) offers a fast-track route to becoming job-ready in one of the most versatile programming languages used across the web.

Surat and Ahmedabad: Centers of Innovation

Red and White's Surat and Ahmedabad centers are playing a key role in this expansion. These campuses are now equipped with smart classrooms, dedicated labs for AI, data analytics, digital marketing, and new collaborative spaces for students from all disciplines to work together.

Both cities, known for their entrepreneurial spirit and technological growth, provide the perfect ecosystem for Red and White's growing network of learners, trainers, and hiring partners.

"We've always believed in learning that creates change—not just passing exams, but building real careers. Whether you're a designer, coder, accountant, or aspiring manager, Red and White Skill Education is here to help you grow," adds **Ms. Pooja Vekariya**, Head of Academic Programs.

Looking Ahead: A Future of Multi-Disciplinary Learning

The transition to a skill education institute is just the beginning. Red and White is already working on launching future-ready programs in domains like **hospitality, healthcare administration, fashion technology, and supply chain management**. The aim is to empower learners across various sectors to gain industry-recognized skills and take control of their careers.

Moreover, the institute plans to integrate national and international certifications, partner with industry leaders for internships and placements, and introduce hybrid learning models that combine classroom and online flexibility.

Open for Admissions

Admissions are now open for all current courses in Surat, Ahmedabad, and other centers. The new and existing programs are designed to cater to students after 10th and 12th, graduates, and working professionals alike. With flexible timings, expert faculty, and a mission-driven approach, Red and White Skill Education is all set to become Gujarat's preferred destination for career-centric learning.
