

Royhtec Electrical Company Sets a New Standard in Electrical and Solar Solutions

Powering Homes, Industries, and the Future

Ilesha, Osun Aug 21, 2025 ([IssueWire.com](https://www.issuewire.com)) - In a world where the demand for reliable, efficient, and sustainable energy solutions is higher than ever, **Royhtec Electrical Company**, led by the highly experienced **Adeniji Adediran Samson**, is making waves across Nigeria and beyond. Known for excellence in **domestic, industrial, and corporate electrical works**, as well as **cutting-edge solar energy installations**, Samson and his team are trusted by top-tier companies, government projects, and private clients to deliver results that exceed expectations.

A Career Built on Expertise and Proven Results

With decades of hands-on experience, Adeniji Adediran Samson has built an impressive portfolio of successful projects that speak to his unmatched technical skill, project management expertise, and dedication to client satisfaction. His work history includes collaborations with some of the most respected organizations and projects in Nigeria:

- **Energo Nigeria Limited** – Key electrical works for major infrastructure and industrial facilities.
- **Julius Berger Plc (Port Harcourt and Uyo Branch)** – Delivered critical electrical services for large-scale construction projects.
- **Supervisor of the Uyo Government House Electrical Project** – Oversaw high-profile, government-level electrical installations, ensuring world-class standards.
- **Supervisor at Emerald Industrial FZE, Calabar, Cross River State** – Directed complex **electrical installation and HVAC** systems for industrial operations.
- **Installation and commissioning of 44 Numerical Protection Terminals at 11 NEPA plants across Nigeria** – Contributed to the national power grid's efficiency and safety.
- **Solar Installations for Homes and Businesses** – Including a 20 KVA/45 KWH system in Ilesha, Osun State; a 5 KVA/10 KWH system at Irete Ayo, Ilesha, Osun State; and a 3.5 KVA/KWH system in Ado-Ekiti.
- **Public Lighting Projects** – Installation of multiple solar street lights at Ilaje Street, Ilesha, Osun State, enhancing community safety and sustainability.

Nationwide and International Reach

Royhtec Electrical Company is not limited by location. Samson and his team are available for projects **across all Nigerian states** and are also open to **international contracts**. Whether it's upgrading a commercial building in Lagos, executing a factory installation in Port Harcourt, or setting up renewable energy systems abroad, the company brings the same level of professionalism, precision, and efficiency to every job.

"Electrical work is more than wiring and connections; it's about delivering power, safety, and sustainability that transform lives and businesses," says Samson. "We pride ourselves on providing

solutions that stand the test of time, anywhere in the world."

A Complete Electrical and Renewable Energy Solution

Royhtec Electrical Company's strength lies in its ability to handle **every aspect of electrical services** with the highest level of expertise.

- HVAC electrical system installation
- Safety compliance and system testing

Corporate Services

- Office electrical installations and upgrades
- Structured cabling and power management
- Backup power solutions
- Energy monitoring systems
- Electrical load optimization

Renewable Energy Solutions

- Consultation and energy needs analysis
- Solar power system design
- Installation and commissioning
- Battery storage solutions
- Hybrid energy systems for uninterrupted power supply

Why Industries and Companies Choose Royhtec Electrical Company

The demand for dependable electrical services in today's competitive business environment is non-negotiable. Downtime, inefficiency, and unsafe installations cost companies not just money but their reputation. This is why top-tier companies and government agencies trust Samson:

- **Proven Industry Experience** – Decades of work with national and international corporations such as Energo Nigeria Limited and Julius Berger Plc.
- **Government-Level Expertise** – Successfully supervised high-profile government projects like the Uyo Government House Electrical Project.
- **Technical Excellence** – Mastery over advanced installations, from numerical protection

terminals to complex solar systems.

- **Scalability** – Capability to execute projects of all sizes, from residential homes to multi-million-naira industrial facilities.
- **Future-Ready Solutions** – Integration of renewable energy systems that prepare clients for tomorrow's energy challenges.

Transforming Energy Use Through Solar Power

In addition to traditional electrical works, Samson has emerged as a leader in **solar power solutions**. His installations are designed to be cost-effective, environmentally friendly, and tailored to the client's energy demands.

From small-scale residential systems to large industrial solar projects, each installation is handled with precision engineering and premium-quality components. His notable solar works include:

- **20 KVA/45 KWH system** – Ilesa, Osun State
- **5 KVA/10 KWH system** – Ireti Ayo, Ilesa, Osun State
- **3.5 KVA/KWH system** – Ado-Ekiti
- **Multiple solar street lighting projects** – Ilaje Street, Ilesa, Osun State

These projects not only save clients money but also guarantee uninterrupted power, reducing dependency on the grid.

Client Testimonials

"Samson and his team are simply unmatched. The solar system they installed for us has been flawless, and our electricity bills have dropped significantly." – Residential Client, Osun State.

"Royhtec Electrical handled our factory wiring with absolute professionalism. We've had zero downtime since the installation." – Industrial Client, Port Harcourt.

"When you hire Samson, you're getting more than an electrician; you're getting a problem-solver who understands exactly what your business needs." – Corporate Client, Calabar.

Your Next Electrical Project Starts Here

Whether you're a homeowner looking to upgrade your electrical systems, an industrial facility requiring expert installation, or a company seeking a trusted partner for large-scale electrical projects, **Royhtec Electrical Company** is ready to deliver.

Samson's proven track record, nationwide reach, and international readiness make him the ideal choice for projects that demand excellence, safety, and innovation.
