

Say Goodbye to Roaming Hassles — Teloka eSIM is Here

One eSIM. Endless destinations.

Sydney, New South Wales Aug 13, 2025 ([IssueWire.com](https://www.issuewire.com)) - Teloka, a new eSIM provider, has officially launched its digital SIM services, offering travelers a smarter, faster, and more affordable way to stay connected worldwide—without the stress of expensive roaming charges or swapping SIM cards.

Teloka's eSIM technology allows customers to purchase and activate mobile data plans for over 200 destinations directly from their compatible device. With instant activation and no physical SIM card

required, travelers can enjoy seamless connectivity from the moment they land.

"Our goal is to make international travel as smooth as possible when it comes to communication," said Linh Nguyen, founder of Teloka. "With Teloka eSIM, you can skip the airport SIM hunt, avoid roaming shocks, and focus on enjoying your trip."

Teloka eSIM Features:

- Coverage in 200+ countries and regions
- Instant online purchase and activation
- Affordable local, regional, and global data plans
- Compatible with leading smartphones and devices
- Eco-friendly—no plastic waste from traditional SIMs

Designed for tourists, business travelers, and digital nomads, Teloka is redefining how people connect when abroad. With no contracts, hidden fees, or complex setup, the service offers a true plug-and-play travel experience.

Teloka eSIMs are now available for purchase at <https://teloka.com/>.

About Teloka

Teloka is a global eSIM provider, dedicated to helping people stay connected anywhere in the world. Through cutting-edge digital SIM technology, Teloka delivers instant mobile data solutions without the need for physical SIM cards, making travel connectivity simple, affordable, and sustainable.
