

Sentinel Cameras Unveils Next-Gen Wireless Security Camera System for Homes, Farms, and Small Businesses

Australian-owned brand launches dual-lens, solar-powered surveillance with 4G/Wi-Fi connectivity and local support.

Adelaide , South Australia Aug 14, 2025 ([IssueWire.com](https://www.issuewire.com)) - Sentinel Cameras, an Australian-owned home and property security brand, today announced the launch of its next-generation **wireless security camera system**, designed to deliver wide-area coverage, easy installation, and reliable protection for households, rural properties, and small businesses. The new lineup centers on the Guardian series—wire-free, solar-powered cameras with app control and optional 4G for truly off-grid locations.

Built to simplify security without compromising performance, the Guardian X-2K combines two 2K lenses in one unit for simultaneous views, advanced AI motion tracking, two-way talk, and full-color night vision—while its high-efficiency solar panel and onboard battery keep it running without hardwiring. For properties with or without internet, customers can choose Wi-Fi or 4G models to suit

their site.

“People want a [wireless security camera system](#) that’s quick to set up, easy to use, and dependable in tough conditions,” said a Sentinel Cameras spokesperson. “With dual-lens visibility, smart motion detection, and solar power, the Guardian range delivers pro-grade protection with a genuinely DIY experience.”

Key Features of Sentinel Cameras’ Wireless Security Camera System

- **Dual-Lens, Two-Way Viewing:** Monitor wide and focused angles at the same time—reducing blind spots and the number of devices needed.
- **2K-Class Clarity:** Sharp details for identification and evidence; digital zoom for up to ~20 meters of readable detail.
- **Solar-Powered & Wire-Free:** High-efficiency panel and battery for cable-free installs and ongoing power savings.
- **4G or Wi-Fi Connectivity:** Protect remote sites without Wi-Fi, or plug into home networks for effortless streaming and alerts.
- **AI Motion Detection & Smart Tracking:** Instant alerts, optional auto-tracking, spotlight/alarm deterrence, and easy arming/disarming in the app.
- **Night & Day Coverage:** Infrared and full-color night vision with powerful spotlights for clarity after dark.
- **Durable, Weather-Ready Design:** IP66 rating for year-round performance across Australian conditions.
- **Flexible Storage:** SD-card support with optional cloud backup; iOS/Android apps with secure, password-protected access and family sharing.

To make ownership simple, Sentinel Cameras offers free domestic shipping, hassle-free returns, and local support—backed by warranties up to two years on select models. Customers can browse bundles for multi-camera coverage and start protecting driveways, sheds, gates, and perimeters within minutes.

Availability

The Guardian series **wireless security camera system** is available now. Shop the Guardian X-2K and other models directly from Sentinel Cameras.
