Broomfield, Colorado Aug 7, 2025 ([IssueWire.com](https://www.issuewire.com)) - Trapper Searles, entrepreneur-turned-author and inspirational speaker, has officially become a #1 bestselling author with the release of his deeply personal and transformative memoir, *I Survived Suicide by Killing Myself: From Pain to Purpose* — a story that’s already resonating with thousands for its honesty, emotional depth, and life-affirming wisdom.

Searles’ memoir traces a raw journey of emotional turmoil, devastating betrayal, and personal resurrection. From a traumatic childhood in a volatile home, through the heights of entrepreneurial success and family life, to the depths of suicidal despair and the life-altering role of caregiver after his wife's catastrophic brain injury — Trapper lays bare his story with unflinching courage and deep vulnerability.

“This book isn’t about surviving for the sake of survival. It’s about discovering the purpose behind our pain and learning how even the darkest moments can be transformed into meaningful growth,” says Searles.

With its unconventional title and even more unconventional honesty, *I Survived Suicide by Killing Myself* climbed to the top of the charts on release — proof of a growing hunger for narratives that don't shy away from life's harshest truths. The book explores themes of masculinity, caregiving, self-worth, and the true essence of fulfillment beyond financial or material success.
