

West Shore Construction Earns Top President's Club Award from Progressive Screens for 2024

Largo, Florida Sep 10, 2025 ([IssueWire.com](https://www.issuewire.com)) - West Shore Construction, a leading provider of hurricane protection in Tampa Bay and motorized retractable screens, has been recognized with the prestigious Top President's Club Award from Progressive Screens for the 2024 sales year. This national honor highlights the company's outstanding sales performance, expert installation services, and commitment to delivering the industry's most advanced outdoor living solutions, including the patented MagnaTrack® system.

The Top President's Club Award is Progressive Screens' highest level of recognition, reserved for the top-performing dealers in the nation. Winners are selected based on annual sales volume, representing exceptional demand for their products and consistent excellence in service and installation. This is the first time West Shore Construction has received this distinction.

"Earning the Top President's Club Award is a tremendous honor for our team," said Chuck Nelms, Founder and Owner of West Shore Construction. "Our success with Progressive Screens' innovative products, including their patented MagnaTrack® system, is a direct result of our commitment to quality craftsmanship, exceptional service, and providing customers with the best solutions for outdoor comfort and hurricane protection."

Progressive Screens, celebrating more than 20 years as an industry leader, is the inventor of the patented MagnaTrack® system — a technology that eliminates up to 98% of common service issues found in other motorized screen systems. Built for durability, performance, and protection, their customizable products enhance, extend, and protect outdoor spaces for both residential and commercial clients.

West Shore Construction, founded in 1985, has grown from a specialty kitchen remodeling and painting company into a full-service contractor specializing in hurricane protection, kitchen and bathroom renovations, and motorized outdoor living products. Serving Clearwater, Tampa, St. Petersburg, Sarasota County, and Pasco County, the company is known for its superior craftsmanship, attention to detail, and long-standing customer relationships.

About Progressive Screens

Founded in 2002, Progressive Screens is the leading manufacturer of motorized retractable screening solutions. The company's patented MagnaTrack® system provides unmatched durability, performance, and low-maintenance operation. Progressive Screens' mission is to enhance, extend, and protect outdoor living spaces through innovative design and top-quality materials. Learn more at www.progressivescreens.com.
