

Workelevate Now Available on Microsoft Azure Marketplace

Noida, Uttar Pradesh Aug 14, 2025 ([Issuewire.com](https://www.issuewire.com)) - Workelevate, an IT Copilot, [Digital Employee Experience](#) (DEX), and Endpoint Management platform, is now listed on the [Microsoft Azure Marketplace](#).

Azure customers can now easily evaluate and deploy Workelevate to empower employees with an AI-powered digital assistant, enhance IT visibility and control, and improve the digital workplace experience—all within their trusted cloud environment.

“This availability on Azure Marketplace makes it easier for enterprises to adopt a trusted platform built for scale, security, and measurable impact,” said **Prateek Garg**, Founder & CEO of Workelevate.

Key Benefits of Workelevate on Azure Marketplace

- **AI-Powered IT Copilot:** This system automates employee self-service and speeds up ticket resolution, which helps reduce the IT workload and enhances response times.
- **Digital Employee Experience (DEX):** Increases employee satisfaction by promoting proactive engagement, offering personalized support, and providing real-time insights into employee sentiment.
- **Root Cause Analysis & Self-Healing:** Proactively identifies and resolves IT issues to minimize downtime and enhance system reliability.
- **Unified Endpoint Management (UEM):** Offers complete visibility and control over devices, ensuring compliance and security in hybrid and remote work environments.
- **Seamless Azure Integration:** Leverages Azure’s scalability, security, and global reach to deliver a trusted, cloud-native solution.

Customers of the Azure Marketplace can now easily deploy Workelevate, benefiting from streamlined procurement, flexible billing, and integration with their existing Azure services. This availability highlights Workelevate’s commitment to helping organizations create a modern, employee-centric digital workplace while ensuring IT efficiency and security.

About Workelevate

Workelevate is the unified platform for Endpoint Management and Employee Experience, built to deliver happier, faster, smarter employees. Its product stack spans an AI IT Copilot for employee self-service and ticket resolution, Digital Employee Experience (DEX) to boost satisfaction through proactive engagement, [Root Cause Analysis](#) (RCA) and self-healing capabilities, and Unified Endpoint Management (UEM) to ensure device visibility, compliance, and control.
