

Atua AI Expands Modular Frameworks to Deliver AI-Powered Productivity Tools

Expanded frameworks support customizable, scalable, and developer-focused AI productivity solutions for Web3.

Singapore, Singapore Sep 18, 2025 ([IssueWire.com](https://www.issuewire.com)) - [Atua AI](#) (TUA) has expanded its modular frameworks to strengthen support for AI-powered productivity tools, giving developers and enterprises new capabilities to integrate intelligent automation across decentralized applications.

The updated frameworks allow independent scaling of AI modules such as Chat, Writer, and Coder, ensuring flexibility and minimizing disruption during upgrades. With improved orchestration logic, developers can customize workflows that adapt seamlessly to evolving blockchain conditions.

These enhancements empower businesses to build and deploy high-performance decentralized applications with greater speed and reliability. Atua AI continues to provide the foundation for scalable AI-driven productivity in the Web3 economy.

About Atua AI

Atua AI offers modular AI-powered productivity and creativity tools, empowering developers, businesses, and creators to streamline workflows in multichain environments. Its platform focuses on adaptability, scalability, and decentralized innovation.
