TECHNOLOGY

Alexandria, Virginia Sep 29, 2025 ([Issuewire.com](https://www.issuewire.com)) - Black Bear Technology Solutions, LLC (B2TS), a leading systems integrator and implementation partner, today announced that it has been awarded a **General Services Administration (GSA) Multiple Award Schedule (MAS) contract**. This designation enables B2TS to offer its comprehensive portfolio of services directly to federal, state, and local agencies through the GSA's streamlined procurement process.

"This award represents an important milestone for Black Bear Technology," said Mr. Kevin M. Andres, Chief Executive Officer. "As a GSA Schedule contract holder, we are well positioned to deliver secure, scalable, and mission-focused solutions across cloud computing, Artificial Intelligence and Machine Learning (AI/ML), cybersecurity, DevSecOps, and program support. This strengthens our ability to support agencies in achieving both operational efficiency and mission success."

The GSA Schedule contract, one of the most widely used acquisition vehicles in the federal marketplace, provides pre-negotiated pricing, terms, and conditions. This designation affirms B2TS' compliance with rigorous government standards and expands its ability to deliver services critical to agency missions.

Through the GSA MAS contract, B2TS will offer a broad suite of services, including:

- **Cloud Computing** – dynamic, scalable cloud solutions to enhance digital flexibility and operational efficiency.
- **Cryptographic Solutions** – advanced encryption, blockchain-based security, and non-repudiation measures to safeguard sensitive data.
- **Software Development** – tactical and strategic software solutions spanning web and mobile platforms.
- **Systems Administration** – expert IT infrastructure management and optimization for seamless operations.
- **Cyber & Data Analytics** – data-driven insights and security assessments to protect mission-

critical information and assets.

- **Mission Support** – program management, readiness analysis, strategic and operational planning, training, and logistics support.
- **Talent Solutions** – staff augmentation, recruiting, and proposal support tailored to federal program needs.

“With this contract, we are excited to expand our partnerships across the federal landscape,” said Dr. Brian Kent, Executive Vice President “Our diverse service offerings ensure that we can deliver comprehensive support to agencies as they pursue their most critical missions.”

About Black Bear Technology Solutions

Black Bear Technology Solutions, LLC (B2TS) is a rapidly growing enterprise specializing in the delivery of innovative, tailored solutions finely tuned to address clients’ immediate and evolving needs. Established in 2016 by seasoned professionals with extensive business and technology acumen, enriched by years of military service, B2TS possesses an intrinsic grasp of mission support continuity and the imperative of unwavering service reliability. Leveraging our proficiency in emerging technology and mission support domains, we have held key leadership roles and contributed to executive-level initiatives across both Government and private sectors.
