Bol Bharat AI, a new venture in the voice automation space, has officially launched its [Voice AI Agent Platform](#) designed specifically for Indian small businesses, solopreneurs, and service providers. The platform offers intelligent AI-powered voice agents that communicate in multiple Indian regional languages to perform core business functions such as appointment booking, lead qualification, follow-ups, and customer support.

The product aims to fill a growing gap in the Indian market where many micro, small, and medium enterprises (MSMEs) face challenges hiring or maintaining telecallers and support staff. By offering a **starting price of ₹100 per day**, Bol Bharat AI intends to make conversational AI technology accessible and cost-effective for businesses across Tier 1, Tier 2, and rural areas.

Bol Bharat AI offers more than 50+ languages ai voice agents under one subscription model. These include [AI receptionist voice agents](#), **AI appointment setters**, and [AI customer service agents](#), all optimized for natural speech in Indian languages. The platform currently supports Hindi, Gujarati, Marathi, Tamil, and Kannada, with more languages in development.

The platform is founded by **Eshaa Shah**, a serial entrepreneur and AI marketing strategist known for creating AI systems for operational automation in India. Eshaa stated, "[Bol Bharat AI Voice Agents](#) was developed to give every Indian entrepreneur a 24/7 AI voice assistant that understands their customer, their language, and their business rhythm."

The launch is part of a broader movement toward digital transformation among Indian MSMEs and reflects growing national interest in accessible, Made-in-India AI solutions. The company's tagline, "*Bolega India. Toh Badhega India,*" reflects its mission to empower local businesses with cutting-edge voice automation.
