

Brazil's Modern Logistics looks to US, Mexico, M&A for expansion

Having achieved dominance in Brazil's vast logistics market, Modern Logistics leverages success to drive international expansion

Miami, Florida Sep 5, 2025 ([Issuewire.com](https://www.issuewire.com)) - Modern Logistics is a São Paulo-based integrated cutting-edge logistics company founded in 2012. Cristiano Koga, recently appointed CEO of Modern Logistics and formerly Vice President of FedEx Global, brings 23 years of management, international trade and logistics experience to the Company.

Mr. Koga will give a presentation at **World Trade Center Miami** where the executive will discuss his company's rapid growth across South America as well as the firm's plan to enter the U.S. market with a presence in Miami. The firm's growth and expansion into foreign markets and e-commerce is significantly strengthened by the recent acquisition of 737-800 cargo aircraft. Modern Logistics is engaged with Sea-Air, which combines sea and air transport, which was critical to cargo transport from Amazonia to points across Brazil during recent droughts. The Company maintains a partnership with **ATC Aviation Services** which strategically positions the firm for South American expansion including Colombia, Ecuador, Chile, Argentina and Uruguay. Having cemented its position in Brazil's vast logistics sector, the Company seeks to leverage its dominant industry position to firmly establish a market presence ahead of emerging competition. "We are at the center of the logistics revolution that is driving the growth of e-commerce. We do not sell trucks, planes or ships. We sell time. We operate in

the most efficient mode to meet the client's deadline, with safety and full visibility of the cargo. This is what sets us apart," highlights Koga. Modern Logistics currently operates domestic service exclusively from its hub at VCP to MAO, REC, GIG, and BS.
